ANNUALS
Acmella oleracea ‘Lemon Drop’
Spilanthes toothache plant

Unit: cell pack
Price: $5

Height: 12-18”
Light: full sun to partial sun
Soil: moderately moist, well-drained soil

Flowering time: Late summer-fall

Container or in-ground: either

Distinctive Qualities: Commonly used to treat toothache and throat and gum infections. Also used to boost the immune system and treat a variety of other ailments such as dysentery and rheumatism. Leaves can be eaten fresh in salads, and cooked as greens.

Advice: Low maintenance plant, no known diseases. Avoid fertilizer and use compost instead. Seeds can be saved.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Agastache aurantiaca ‘Navajo Sunset’
red hummingbird mint

Unit: cell pack
Price: $5

Height: 16-18”
Light: full sun
Soil: well drained
Flowering time: summer to fall
Container or in-ground: either

Advice: Can overwinter indoors. Propagate through division and re-pot every 2-3 years. Needs excellent drainage when containered.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Agastache aurantiaca ‘Sandstone’
red hummingbird mint

Unit: cell pack
Price: $5
Height: 16-18”
Light: full sun
Soil: well drained
Flowering time: summer to fall
Container or in-ground: either

Advice: Can overwinter indoors. Propagate through division and re-pot every 2-3 years. Needs excellent drainage when containered.
ANNUALS
Ageratum houstonianum ‘Blue Horizon’
floss flower

Unit: cell pack
Price: $5

Height: 18-30”
Light: full sun
Soil: light, moist and well-drained

Flowering time: Mid-summer - fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Tolerant against rabbits and deer; attracts butterflies

Advice: Avoid watering from directly above.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Amaranthus tricolor ‘Early Splendor’
Joseph’s coat

Unit: cell pack
Price: $5

Height: 24” container, 36” ground
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: ground

Distinctive Qualities: Leaves and seeds are edible. This is a bushy, upright annual with large red upper leaves in contrast to the chocolate brown lower leaves.

Advice: Watch out for aphids!

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Amaranthus tricolor ‘Flaming Fountain’
Joseph’s coat

Unit: cell pack
Price: $5

Height: 24" container, 36" ground
Light: full sun
Soil: moist, well-drained

Flowering time: summer
Container or in-ground: ground

Distinctive Qualities: Leaves and seeds are edible.
Advice: Watch out for aphids!

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Amaranthus tricolor ‘Illumination’
Joseph’s coat

Unit: cell pack
Price: $5

Height: 24” container, 36” ground
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: ground

Distinctive Qualities: Leaves and seeds are edible.

Advice: Watch out for aphids!

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Amaranthus tricolor ‘Molten Fire’
Joseph’s coat

Unit: cell pack
Price: $5
Height: 24” container, 36” ground
Light: full sun
Soil: moist, well-drained
Flowering time: summer
Container or in-ground: ground
Distinctive Qualities: Leaves and seeds are edible.
Advice: Watch out for aphids!

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Amaranthus caudatus ‘Red Tails’
love-lies-bleeding

Unit: cell pack
Price: $5
Height: 24" (container) 36" (ground)
Light: full sun
Soil: moist, well-drained
Flowering time: summer
Container or in-ground: ground
Distinctive Qualities: leaves and seeds are edible
Advice: watch out for aphids!

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Ammi majus
Queen Anne’s lace, bishop’s weed

Unit: cell pack
Price: $5

Height: 40”
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: ground

Distinctive Qualities: Makes lovely dried flowers.

Advice: Do not over-fertilize.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Anagallis monelli ‘Blue Light’
blue pimpernel

Unit: cell pack
Price: $5

Height: 7”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: Blooms non stop from early summer till frost.

Advice: Deadhead blooms to prolong bloom season.
Roots rot with poorly drained soil. Potted plants may be overwintered. Better at tolerating drought than root rot.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Anchusa capensis ‘Blue Angel’
summer forget-me-not, bugloss

Unit: cell pack
Price: $5
Height: 12-18"
Light: full sun
Soil: moist, well-drained
Flowering time: summer to fall
Container or in-ground: either
Distinctive Qualities: Blooms non stop from early summer till frost. Deer resistant.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Angelonia angustifolia ‘Serena Blue’
summer snapdragon

Unit: cell pack
Price: $5

Height: 16-20 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: mid-spring - summer

Container or in-ground: large container or outdoors

Distinctive Qualities: Rabbit and deer resistant; drought resistant

Advice: Use compost before planting and light fertilizer once a month

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Antirrhinum majus ‘Rocket Bronze’
snapdragon

Unit: cell pack
Price: $5
Height: 18-24”
Light: full sun
Soil: moist, well-drained
Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: Native to the Mediterranean from Portugal to Turkey where it grows in crevices and corners. Flowers profusely in cool weather and begins to flower from the stalk up, making for long periods of blooming.

Advice: Deadhead blooms to prolong bloom season.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Antirrhinum majus ‘Rocket Lemon’
snapdragon

Unit: cell pack
Price: $5

Height: 18-24”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Native to the Mediterranean from Portugal to Turkey where it grows in crevices and corners. Flowers profusely in cool weather and begins to flower from the stalk up, making for long periods of blooming.

Advice: Deadhead blooms to prolong bloom season.

To order plants, please visit www.snug-harbor.org/plant-sale.

CLICK HERE TO RETURN TO PLANT LIST
ANNUALS
Antirrhinum majus ‘Rocket Red’
snapdragon

Unit: cell pack
Price: $5
Height: 18-24”
Light: full sun
Soil: moist, well-drained
Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: Native to the Mediterranean from Portugal to Turkey where it grows in crevices and corners. Flowers profusely in cool weather and begins to flower from the stalk up, making for long periods of blooming.

Advice: Deadhead blooms to prolong bloom season.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Asarina scandens ‘Joan Lorraine Blue’
climbing snapdragon

Unit: pot
Price: $9

Height: vine grows to 6’
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Trumpet-shaped flowers are hummingbird favorites. These vines bloom incessantly and add height to a flower garden.

Advice: Vines twine best on thin supports less than 1 inch in diameter.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Asclepias curassavica ‘Apollo Orange’
Mexican butterfly weed

Unit: pot
Price: $6
Height: 36"
Light: full sun
Soil: moist, well-drained
Flowering time: summer
Container or in-ground: ground

Distinctive Qualities: Great pollinator. Please note that the milky sap of cut stems can irritate skin.
Advice: Pinch plant to encourage bushy growth.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS

Catharanthus roseus ‘Cobra Orange’
vinca

Unit: cell pack
Price: $5

Height: 36”
Light: full sun to partial shade
Soil: moist

Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: This plant is mildly toxic.

Advice: Pinch plant to encourage bushy growth.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Catharanthus roseus ‘Tattoo Papaya’
vinka

Unit: cell pack
Price: $5

Height: 36”
Light: full sun to partial shade
Soil: moist

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: This plant is mildly toxic.

Advice: Pinch plant to encourage bushy growth.

To order plants, please visit www.snug-harbor.org/plant-sale.

CLICK HERE TO RETURN TO PLANT LIST
ANNUALS
Celosia cristata ‘Chief Gold’
cockscob

Unit: cell pack
Price: $5

Height: 36-40”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities:

Advice: plant in rich soil with lots of compost

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Celosia cristata ‘Dracula’
cockscomb

Unit: cell pack
Price: $5
Height: 8-16”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: the bloom is light sensitive, changing colors in light

Advice: plant in rich soil with lots of compost

To order plants, please visit www.snug-harbor.org/plant-sale.
**Celosia ‘Dragon’s Breath’**  
cockscob

- **Unit:** cell pack  
- **Price:** $5
- **Height:** up to 30”  
- **Light:** full sun  
- **Soil:** well drained
- **Flowering time:** mid-spring to late summer
- **Container or in-ground:** either

[CLICK HERE TO RETURN TO PLANT LIST](#)
ANNUALS

Celosia plumosa ‘Pampas Plume Gold’
cockscamb

Unit: cell pack
Price: $5
Height: up to 30"
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: long-lasting flowers with bronzing foliage

Advice: plant in rich soil with lots of compost

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS

Celosia plumosa ‘Pampas Plume Red’
cockscomb

Unit: cell pack
Price: $5

Height: up to 30”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: long-lasting flowers with bronzing foliage

Advice: plant in rich soil with lots of compost

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Celosia plumosa ‘Forest Fire’
cockscomb

Unit: cell pack
Price: $5

Height: up to 30”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: long-lasting flowers with bronzing foliage

Advice: plant in rich soil with lots of compost

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Celosia spicata ‘Flamingo Feather’
cockscomb

Unit: cell pack
Price: $5

Height: 8-16”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: blooms blush as they age, heat and drought tolerant once established

Advice: plant in rich soil with lots of compost
ANNUALS
Cephalophora aromatica ‘Pineapples’

Unit: cell pack
Price: $5

Height: up to 30"
Light: full sun
Soil: light, rich, well-drained

Flowering time: early summer to mid-fall

Container or in-ground: either

Distinctive Qualities: smells a bit like pineapple and mango

Advice: plant in rich soil with lots of compost

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cobaea scandens white
cup and saucer vine

Unit: pot
Price: $5

Height: vine grows to 10'
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: ground

Distinctive Qualities: Woody-stemmed tendril climber. Easy to grow. Flowers start as green and change to purple when in full bloom. Fully opened flowers develop a honey-like fragrance.

Advice: This can overtake nearby plants. Use where you want solid cover.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cosmos bipinnatus ‘Peppermint Twist’
cosmos

Unit: cell pack
Price: $5

Height: 36”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: ground

Distinctive Qualities: A great pollinator.

Advice: Does not like drought or strong wind.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cosmos bipinnatus ‘Rubenza’
cosmos

Unit: cell pack
Price: $5

Height: 36”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: ground

Distinctive Qualities: A great pollinator.
Advice: Does not like drought or strong wind.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cosmos bipinnatus ‘Xanthos’
cosmos

Unit: cell pack
Price: $5

Height: 36”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: ground

Distinctive Qualities: A great pollinator.
Advice: Does not like drought or strong wind.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Crossandra Tropic Flame
firecracker flower

Unit: cell pack
Price: $5

Height: 12"
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: both

Distinctive Qualities: Native to southern India and Sri Lanka. Showy flowers used as decoration and strung together in garlands. Consistent bloomer. Seeds “explode” like firecrackers in high humidity. Likes warm temperatures. Can be cultivated as a house plant.

Advice: Keep soil moist. Appreciates partial shade.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cuphea ignea
Mexican cigar plant

Unit: cell pack
Price: $5

Height: 18-30 inches
Light: full sun
Soil: moist, well-drained

Flowering time: summer - fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Attracts hummingbirds and bees

Advice: Can tolerate high heat and some drought but does best with regular moisture

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cynara cardunculus ‘Gobbo di Nizzia’
cardoon

Unit: pot
Price: $5
Light: full sun
Soil: well drained
Container or in-ground: ground

Distinctive Qualities: A rare cardoon from Italy. It is a beautifully ornamental plant with broad white stalks that are eaten fried, sautéed, or pickled in soups. Italians eat this vegetable raw and dipped in olive oil. Cardoons are also enjoyed in cuisines across Europe and North Africa. The root is tasty as well and can be used like parsnips.

Advice: Do not overwater. Plant in compost rich, slightly alkaline soil.

Companion Planting: peas, sunflowers, tarragon, and members of the cabbage family.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Dianthus chinensis var. heddewigii ‘Black & White Minstrels’
pinks

Unit: cell pack
Price: $5

Height: 14 inches
Light: full sun to partial sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: large container or outdoors

Distinctive Qualities: drought and deer resistant; attracts butterflies

Advice: Plants are self-cleaning; no need for dead-heading or trimming at the end of the season.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS

Dichondra argentea ‘Silver Falls’
silver nickel vine

Unit: pot  
Price: $8

Height: 4"  
Light: full sun
Soil: moist, well-drained

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: A creeping ornamental. Tolerates heat and drought. Can trail 2-4’. Also can provide good ground cover.

Advice: Grow in baskets or containers or over retaining walls to allow for cascading effect. Let soil dry between waterings.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Eccremocarpus scaber ‘Tresco mix’
Chilean glory flower

Unit: pot
Price: $6

Height: vine grows to 6’
Light: full sun
Soil: moist, well-drained

Flowering time: late summer

Container or in-ground: ground

Distinctive Qualities: A fast-growing evergreen climber.

Advice: Do not overwater. Grow in fertile soil.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Echium plantagineum ‘Blue Bedder’
Viper’s bugloss

Unit: cell pack
Price: $5

Height: 16-20 inches
Light: full sun
Soil: well-drained, can poor and dry soil
Flowering time: summer - fall
Container or in-ground: large container or outdoors
Distinctive Qualities: Attracts bees. Drought and deer resistant.
Advice: If you don’t cut the stems after flowering, will easily self-seed. Sap can irritate skin. All parts of the plant are toxic if eaten. Deadhead to extend flowering for months.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Emilia coccinea ‘Scarlet Magic’
tassel flower

Unit: cell pack
Price: $5

Height: 45-60 inches
Light: full sun
Soil: moist, well-drained

Flowering time: summer-fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Attracts pollinators. Parts of plant are poisonous if ingested.

Advice: Water regularly when first establishing plant, then only plant during dry periods.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Euphorbia graminea ‘Glitz’
grassleaf spurge

Unit: cell pack
Price: $5

Height: 12”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: either

Advice: No deadheading required. Full sun ensures best blooms. Make sure to wear gloves when handling as sap can cause a rash to sensitive skin (as well as animals).
ANNUALS
Euphorbia marginata ‘Snow Top’
Snow on the Mountain

Unit: cell pack
Price: $5

Height: 3’
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Advice: No deadheading required. Full sun ensures best most dramatic coloring. Make sure to wear gloves when handling as sap can cause a rash to sensitive skin (as well as animals). Do not overcrowd or overwater, or powdery mildew may result.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Gaillardia x grandiflora ‘Arizona Red Shades’
blanket flower

Unit: cell pack
Price: $5

Height: 30”
Light: full sun
Soil: moist, well-drained

Flowering time: summer
Container or in-ground: either

Advice: Tolerates low water. To encourage a fall bloom, cut down plants after summer blooming. To save seeds: first, select your favorite blooms and mark with a cloth tie, allowing the flower to “die” on the plant; then cut the seed head from the stalk and place the seed head in an open paper bag to dry for two weeks. Then break open the seed head to dislodge seed. Store seeds in a cool dark place until next year’s planting.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Gazania rigens ‘Big Kiss Red’
treasure flower

Unit: cell pack
Price: $5
Height: 8”
Light: full sun
Soil: moist, well-drained
Flowering time: summer
Container or in-ground: either
Distinctive Qualities: low maintenance, drought tolerant.
Advice: Don’t worry about this one!

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Gazania rigens ‘Daybreak Red Stripe’
treasure flower

Unit: cell pack
Price: $5
Height: 8”
Light: full sun
Soil: moist, well-drained
Flowering time: summer
Container or in-ground: either
Distinctive Qualities: low maintenance, drought tolerant.
Advice: Don’t worry about this one!

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Gomphocarpus physocarpus
hairy balls

Unit: pot
Price: $6

Height: 36-40"
Light: full sun
Soil: moist, well-drained

Flowering time: late summer to fall

Container or in-ground: ground

Distinctive Qualities: Generally grown for their seed pods, not their flowers, these plants are deer resistant and drought tolerant. Stems and seed pods can be dried for long-lasting decoration.

Advice: Easy seed saver

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Helianthus debilis Italian White
beach sunflower

Unit: pot
Price: $6

Height: 12-20 inches
Light: full sun
Soil: acidic, sandy, well-drained

Flowering time: summer to late fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Native to the southeast U.S.
Attracts bees, butterflies, and birds. Spreads quickly by
runners. Prolific self-seeder. Low maintenance. Salt
and drought tolerant.

Advice: Avoid overwatering. Apply compost in spring
and late summer. Great for cascading.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Helianthus annuus Velvet Queen
sunflower

Unit: pot
Price: $6

Height: 3-10 feet
Light: full sun
Soil: moist, alkaline, well-drained

Flowering time: late summer - fall

Container or in-ground: large container or outdoors

Distinctive Qualities: attracts bees and butterflies throughout the season, and feeds birds in fall and winter. Deer and drought resistant.

Advice: May benefit from staking or other support. Avoid overwatering, especially in the winter. Seeds can be saved.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Hypoestes phyllostachya ‘Splash Select Red’
polka dot plant

Unit: cell pack
Price: $5
Height: 6”
Light: full sun to shade
Soil: moist, well-drained
Flowering time: foliage
Container or in-ground: either

Distinctive Qualities: Native to Madagascar, this plant grows well in containers and as bedding.

To order plants, please visit www.snug-harbor.org/plant-sale.

ANNUALS

Talinum paniculatum limón
Jewels of Opar

Unit: cell pack
Price: $5

Height: 24 inches
Light: full sun
Soil: well-drained, slightly acidic

Flowering time: spring-summer

Container or in-ground: large container or outdoors

Distinctive Qualities: lime green foliage with tiny hot pink flowers with tiny red seed pods. Generally pest and disease resistant.

Advice: foliage becomes even more vivid when dry. Does well in the heat. Biggest concerns are spider mites, aphids, and over-watering. At the first sign of spider mites, spray with a mixture of water and dish soap.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Tarenaya hassleriana ‘Helen Campbell’
spider flower

Unit: cell pack
Price: $5
Height: 36-48 inches
Light: full sun
Soil: well-drained soil

Container or in-ground: outdoors
Distinctive Qualities: Drought and rabbit resistant;
Attracts pollinators such as hummingbirds, bees and butterflies
Advice: Remove seed pods if self-seeding is undesired

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Thunbergia alata ‘Amber Eyes’
black-eyed Susan vine

Unit: pot
Price: $5

Height: 8’
Light: full sun to partial shade
Soil: moist, well drained

Distinctive Qualities: A twining climber, not a tendril climber, reaching 6-8 feet. Native to Madagascar and Southern Asia

Advice: Likes loamy soil. Because this plant grows quickly and sprawls, be mindful of location. These are often planted with Morning Glories and Purple hyacinth bean. Mulch around the base to help control root moisture. you can pot up a plant and winter indoors, or take stem cuttings to create seedlings. Fertilize lightly every 4-6 weeks.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Torenia fournieri ‘Kuani Deep Blue’
wishbone flower

Unit: cell pack
Price: $5

Height: 8”
Light: full sun to partial shade
Soil: moist, well drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Noted for its ability to flower in shady conditions. A pair of stamens unites at the anthers in a shape resembling the wishbone of a chicken, hence the common name.

Advice: Mulch in the summer to help keep roots cool and moist. Pinch to promote bushy growth. Can be overwintered indoors.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Tropaeolum majus ‘Whirlybird Mahogany Red’
nasturtium

Unit: pot
Price: $5

Height: 12”
Light: full sun to shade
Soil: moist, well-drained

Flowering time: spring to fall

Container or in-ground: either

Distinctive Qualities: deer resistant, all parts of the nasturtium are edible, peppery taste is reminiscent of watercress, may be used in stir fry, flowers are high in vitamin C, and have the highest lutein of any edible plant, harvest unripe seed pods to infuse vinegar, or use them much like you would capers.

Advice: watch for caterpillars, recovers quickly from wilting, pinch off yellowing leaves.

Companion planting: a terrific companion plant addition to your edible garden.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Tropaeolum majus ‘Whirlybird Mix’ nasturtium

Unit: pot
Price: $5

Height: 12”
Light: full sun to shade
Soil: moist, well-drained

Flowering time: spring to fall

Container or in-ground: either

Distinctive Qualities: deer resistant, all parts of the nasturtium are edible, peppery taste is reminiscent of watercress, may be used in stir fry, flowers are high in vitamin C, and have the highest lutein of any edible plant, harvest unripe seed pods to infuse vinegar, or use them much like you would capers.

Advice: watch for caterpillars, recovers quickly from wilting, pinch off yellowing leaves.

Companion planting: a terrific companion plant addition to your edible garden.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Verbena bonariensis
Brazilian vervain

Unit: cell pack
Price: $5

Height: 36”
Light: full sun
Soil: moist, well drained

Flowering time: summer to fall

Container or in-ground: either

Advice: Tolerates poor soil if it's well drained

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Viscaria oculata ‘Blue Angel’
catchfly

Unit: cell pack
Price: $5

Height: 12”
Light: full sun
Soil: moist, well drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Prolific bloomers, easily adapting to any planting environment.

Advice: Extremely low maintenance.

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
ANNUALS
Zinnia peruviana “Arizona Bronze’

Zinnia

Unit: cell pack
Price: $5

Height: 24”
Light: full sun
Soil: moist, well drained

Flowering time: summer to fall

Container or in-ground: ground

Distinctive Qualities: Attracts birds, hummingbirds, and butterflies. Excellent fresh cut flower. Prolific bloomer.

Advice: Pinch young plants to promote compact, bushy form. Plant in an area with good air circulation to avoid fungal leaf problems. Deadheading will extend the bloom period

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS

PERENNIALS/BIENNIALS
Alchemilla mollis
lady’s mantle

Unit: pot
Price: $9

Height: 12-18”
Light: partial shade to shade
Soil: moist, well drained

Flowering time: late spring

Container or in-ground: either

Distinctive Qualities: Native to the Caucasus. Good fresh cut flowers and dried flowers. Deer and rabbit resistant. Great self-seeder

Advice: Can become invasive if it finds the perfect spot in your garden. Remove spent flower stems to prevent self-seeding and to encourage a late summer rebloom.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Allium tuberosum
garlic chives

Unit: pot
Price: $7

Height: 3-4’
Light: full sun
Soil: well drained

Flowering time: early summer
Container or in-ground: ground

Distinctive Qualities: Good fresh cut flowers and dried flowers. Drought tolerant.
Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Alyssum saxatilis ‘Summit Golden Yellow’
basket of gold

Unit: pot
Price: $4

Height: 10”
Light: Full
Soil: well-drained

Flowering time: spring

Container or in-ground: either

Distinctive Qualities: Great ground cover plant and self-seeder. Drought, rabbit and deer resistant; attracts butterflies and bees; flowers are edible

Advice: deadhead spent flowers to promote new growth and to prevent self-seeding. Hardy and low-maintenance.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Anemone tomentosa
windflower

Unit: pot
Price: $9

Height: 3-4'
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer - fall

Container or in-ground: in-ground

Distinctive Qualities: Attracts butterflies; Deer, rabbit resistant; Can tolerate wet or salty soil; Eating can cause upset stomach and may cause irritation to the skin

Advice: Can become a nuisance in bed; requires ample space to grow
PERENNIALS/BIENNIALS
Anthemis sancti-johannis
St. John’s chamomile

Unit: pot
Price: $4

Height: 20”
Light: full sun
Soil: dry, well-drained

Flowering time: summer
Container or in-ground: in-ground

Distinctive Qualities: Attracts butterflies; Deer, rabbit resistant; tolerates drought. Self-seeds.

Advice: deadhead to prolong blooming. Can become a nuisance in bed; requires ample space to grow
PERENNIALS/BIENNIALS
Aquilegia caerulea ‘Star Series Blue’
columbine

Unit: pot
Price: $4

Height: 24”
Light: partial shade
Soil: moist, well-drained

Flowering time: late spring to summer

Container or in-ground: either

Distinctive Qualities: prolific self-seeder. Attracts hummingbirds and butterflies; Deer, rabbit resistant; Can tolerate wet soil; Eating can cause upset stomach and may cause irritation to the skin

Advice: fails in poorly drained soil. Deadhead to promote blooming. Cut to the ground in midsummer when the foliage declines.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Aquilegia caerulea ‘Red Hobbit’
columbine

Unit: pot
Price: $4

Height: 24”
Light: partial shade
Soil: moist, well-drained

Flowering time: late spring to summer

Container or in-ground: either

Distinctive Qualities: prolific self-seeder. Attracts hummingbirds and butterflies; Deer, rabbit resistant; Can tolerate wet soil; Eating can cause upset stomach and may cause irritation to the skin

Advice: fails in poorly drained soil. Deadhead to promote blooming. Cut to the ground in midsummer when the foliage declines.
PERENNIALS/BIENNIALS
Aster laevis ‘Bluebird’
smooth aster

Unit: pot
Price: $9

Height: 3-4’
Light: full sun to light shade
Soil: well drained

Flowering time: late summer through fall

Container or in-ground: either

Distinctive Qualities: attracts bees and butterflies, great root structure for erosion control, deer resistant, great for cut flowers, easily reseeds

Advice: plants will stretch in less light. Leave standing over the winter and cut back to 1-2” above ground. If foliage shows signs of mildew, but back the immediately and compost.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Aster oblongifolius
aromatic aster

Unit: pot
Price: $9

Height: 3-4’
Light: full sun to light shade
Soil: well drained

Flowering time: late summer through fall

Container or in-ground: either

Distinctive Qualities: attracts bees and butterflies, great
root structure for erosion control, deer resistant, great for
cut flowers, easily reseeds

Advice: plants will stretch in less light. Leave standing
over the winter and cut back to 1-2” above ground. If
foliage shows signs of mildew, but back the immediately
and compost.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula alliariifolia
Cornish bellflower

Unit: pot
Price: $4

Height: 18-28"
Light: full sun to light shade
Soil: moist, well-drained, neutral to alkaline

Flowering time: summer - fall

Container or in-ground: either

Distinctive Qualities: self-seeding, attracting bees and butterflies. Leaves can be eaten raw or cooked, with leaves getting bitter as they age. Flowers have a slight sweetness and pleasant taste and texture. Forms spreading clumps.

Advice: Can be grown for ground cover. Cut back as the flowers fade for a second flush later in the season.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula carpatica ‘Deep Blue Clips’
Carpathian bellflower

Unit: pot
Price: $4

Height: 8"
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: midsummer - fall

Container or in-ground: either

Distinctive Qualities: low growing, not an aggressive runner. Attracts hummingbirds. Deadhead to promote blooming.

Advice: mulch generously to keep roots cool, watch out for slugs and fungus

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula cochleariifolia ‘Advance Blue’
earleaf bellflower

Unit: pot
Price: $4

Height: 6”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: late spring to midsummer

Container or in-ground: in-ground

Distinctive Qualities: low growing, not an aggressive runner. Rabbit resistant

Advice: good for groundcover and underplantings, very low-maintenance plant

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula glomerata ‘Bellefleur Blue’
clustered bellflower

Unit: pot
Price: $4

Height: 6-20”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: late spring to midsummer

Container or in-ground: either

Distinctive Qualities: deer and rabbit resistant; attracts hummingbirds, butterflies, and bees; can spread rapidly in rich soil. Cut flowers can last up to 2 weeks.

Advice: to prevent self-seeding and promote a second flush of flowers, cut back after flowering.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula lactiflora ‘Dwarf Pink’
milky bellflower

Unit: pot
Price: $4

Height: 4-5’
Light: full sun to partial sun
Soil: moist, well-drained

Flowering time: midsummer to early fall

Container or in-ground: either

Distinctive Qualities: deer and rabbit resistant, can spread rapidly in rich soil

Advice: deadhead flowers to encourage blooming and prevent self-seeding

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula portenschlagiana (C. muralis)
‘Tumbling Bells’
Dalmatian bellflower

Unit: pot
Price: $4

Height: 6-8”
Light: full sun
Soil: moist, well-drained

Flowering time: summer - fall
Container or in-ground: either

Distinctive Qualities: cut flowers are long-lasting.

Advice: great along pathways and walls. Cascades easily. Apply compost once at the beginning of the season. Do not allow the soil to dry out completely. Greater exposure to sunlight requires more watering. Promote blooming by deadheading.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula punctata
spotted bellflower

Unit: pot
Price: $4

Height: 12-20”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: late spring through summer

Container or in-ground: either

Distinctive Qualities: native to Siberia, China, and Japan. Can spread aggressively. Leaves and roots are edible. Leaves can be served raw in a salad, growing more bitter with the season. Roots may be eaten raw, dried, or cooked.

Advice: deadhead to prevent spreading and promote blooming

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula pyramidalis
chimney bellflower

Unit: pot
Price: $4

Height: 3-4'
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer - fall

Container or in-ground: either

Distinctive Qualities: native to southeastern Europe.

Advice: consider staking to protect the flower spikes from wind, or plant by a tall structure. Can be overwintered indoors. As a biennial, this flowers in its second year. Apply compost twice monthly in its second year. Deadhead to promote blooming.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Campanula thyrsoides
yellow bellflower

Unit: pot
Price: $4

Height: 12-18”
Light: full sun to partial sun
Soil: moist, well-drained

Flowering time: mid to late summer

Container or in-ground: either

Distinctive Qualities: low maintenance, fragrant, long-lasting, deer tolerant

Advice: moderately apply compost twice monthly

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Centaurea macrocephala
bighead knapweed

Unit: pot
Price: $4

Height: 3-4’
Light: full sun
Soil: well drained

Flowering time: early summer

Container or in-ground: ground

Distinctive Qualities: Good fresh cut flowers and dried flowers. Drought tolerant.

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Centaurea montana
bachelor button

Unit: pot
Price: $4

Height: 12-24 inches
Light: full to partial sun
Soil: well-drained

Flowering time: spring-summer
Container or in-ground: either

Distinctive Qualities: Deer, drought and dry soil tolerant; attracts butterflies

Advice: Avoid rich soil; Plant will self-seed, avoid this by deadheading plant

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Centaurea ruthenica
Russian knapweed

To order plants, please visit www.snug-harbor.org/plant-sale.

Unit: pot
Price: $4

Height: 12-24 inches
Light: full to partial sun
Soil: well-drained

Flowering time: spring-summer

Container or in-ground: container

Distinctive Qualities: attracts butterflies
Advice: Avoid rich soil
PERENNIALS/BIENNIALS
Coreopsis grandiflora ‘Sunfire’
large-flowered tickseed

Unit: pot
Price: $4

Height: 2-8'
Light: full sun
Soil: slightly moist, well-drained

Flowering time: summer-fall

Container or in-ground: either

Distinctive Qualities: Attracts butterflies; deer and drought resistant

Advice: Protect from strong winds and overly moist soil; deadheading of spent flowers will encourage new blooms and avoid self-seeding. Flower stalks benefit from staking.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Coreopsis tripteris
tall tickseed

Unit: pot
Price: $9

Height: 2-8'
Light: full sun
Soil: slightly moist, well-drained

Flowering time: summer-fall

Container or in-ground: either

Distinctive Qualities: Attracts butterflies; deer and drought resistant

Advice: Protect from strong winds and overly moist soil; deadheading of spend flowers will encourage new blooms and avoid self-seeding

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Coreopsis verticillata ‘Zagreb’
threadleaf coreopsis, or whorled tickseed

Unit: pot
Price: $9

Height: 12-15 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Attracts butterflies; deer, drought and dry soil resistant

Advice: Avoid overwater; plant enjoys dry to medium soil moisture; Deadhead plant to promote new growth

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Crambe cordifolia
colewort

Unit: pot
Price: $4

Height: 3’
Light: full sun
Soil: well drained

Flowering time: early summer

Container or in-ground: ground

Distinctive Qualities: Showy, fragrant white flowers.

Advice: Foliage depreciates rapidly if soils dry out. May need staking. Requires 4’ space.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Digitalis lanata
Grecian foxglove

Unit: pot
Price: $4

Height: 12-48 inches
Light: Full sun to partial shade
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Plant is considered poisonous, keep out of reach from children and pets; Drought resistant

Advice: Prefers partial shade but will also succeed in full sun

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS

Digitalis lutea
straw foxtale

Unit: pot
Price: $4

Height: 2'
Light: partial shade to shade
Soil: moist

Flowering time: early summer

Container or in-ground: ground

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Digitalis obscura
willow-leaved foxglove

Unit: pot
Price: $4

Height: 12-18 inches
Light: full sun
Soil: well-drained

Flowering time: spring-summer

Container or in-ground: either

Distinctive Qualities: Attracts butterflies, bees and hummingbirds; deer and rabbit resistant and drought tolerant

Advice: Keep soil moderately moist and avoid overwatering

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Digitalis purpurea ‘Excelsior’
common foxglove or lady’s glove

Unit: pot
Price: $4

Height: 12-18 inches
Light: full to partial shade
Soil: moist, well-drained

Flowering time: spring-summer

Container or in-ground: either

Distinctive Qualities: Attracts butterflies, bees and hummingbirds; deer and rabbit resistant. Toxic to pets and children. Can self-seed.

Advice: Keep soil moderately moist and avoid overwatering. Plant to allow adequate air circulation to avoid powdery mildew and leaf spots.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Echinops bannaticus ‘Blue Glow’
globe thistle

Unit: pot
Price: $4

Height: 3’
Light: full sun to partial shade
Soil: not picky, but well drained

Flowering time: July to August

Container or in-ground: either

Distinctive Qualities: deer, drought, and rabbit tolerant; attracts bees and butterflies

Advice: tolerates a wide range of soils, deadheading the flowers will extend the bloom period and prevent self-seeding. Cut flowers before they open to preserve by drying upside down
PERENNIALS/BIENNIALS
Eryngium planum ‘Blue Glitter’
flat sea holly

Unit: pot
Price: $4

Height: 24”
Light: full sun to partial shade
Soil: dry, well-drained

Flowering time: spring through summer

Container or in-ground: either

Distinctive Qualities: Deer, rabbit and drought tolerant;
Can tolerate dry soil. self-seeding.

Advice: sunnier placement results in brighter blue flowers. Cut back in late summer when flowering is over.
Once it is established, do not disturb.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Helenium hoopesii
orange sneezeweed or owl’s-claws

Unit: pot
Price: $4

Height: 28 inches
Light: full sun
Soil: moist, well-drained
Flowering time: early summer to fall
Container or in-ground: either

Ozark sundrops

Unit: pot
Price: $4
Height: 6-12 inches
Light: full sun
Soil: well-drained
Flowering time: spring-fall
Container or in-ground: either
Distinctive Qualities: Drought and dry soil resistant
Advice: Does best in dry to medium soil in full sun; Can tolerate poor soil and light shade; avoid over watering

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS ⁄ BIENNIALS
Oenothera versicolor ‘Sunset Boulevard’
evening primrose

Unit: pot
Price: $4

Height: 15 inches
Light: full sun to partial sun
Soil: well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Drought and dry soil resistant, fills in rapidly and self-seeds

Advice: Does best in dry to medium soil in full sun; can tolerate poor soil and light shade; avoid over-watering. After flowering, cut it back moderately to control spread.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Patrinia scabiosifolia
golden valerian

Unit: pot
Price: $4

Height: 24-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer through fall

Container or in-ground: either

Distinctive Qualities: native to eastern Asia, considered one of the Seven Flowers of Autumn. Deer, rabbit and drought tolerant; Attracts bees. Considered to be an adaptable plant. Self-seeding. Pleasant fragrance.

Advice: grows best in rich, slightly acidic, well drained soil; Avoid drying or overwatering

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Phlomis tuberosa
tuberous Jerusalem sage

Unit: pot
Price: $4
Height: 4’
Light: full sun to partial shade
Soil: moist, well-drained
Flowering time: summer to fall
Container or in-ground: ground

Distinctive Qualities: Attracts birds and butterflies. Deer tolerant. Native to the Himalayas. Roots can be cooked and eaten.

Advice: Easy to grow. Grows best protected from strong winds.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Polygonatum odoratum ‘Variegatum’
Solomon’s seal

Unit: pot
Price: $10

Height: 2-3’
Light: partial shade to shade
Soil: moist, well drained

Flowering time: spring

Container or in-ground: either

Distinctive Qualities: Fragrant flowers followed by pendulous blue-black berries in fall. Drought and shade tolerant.

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Salvia argentea
silver sage

Unit: pot
Price: $4

Height: 12-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer
Container or in-ground: either

Distinctive Qualities: Drought tolerant

Advice: Leave old leaves until spring; The large leaves seem to help shield the crown from excess moisture, keeping the soil around the base drier and helping winter survival.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Salvia transylvanica ‘Blue Spires’
Transylvanian sage

Unit: pot
Price: $4

Height: 12-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Drought tolerant

Advice: Leave old leaves until spring; The large leaves seem to help shield the crown from excess moisture, keeping the soil around the base drier and helping winter survival.

PERENNIALS/BIENNIALS
Symphytum grandiflorum
comfrey

Unit: pot
Price: $9

Height: 18 inches
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: spring-summer

Container or in-ground: either

Distinctive Qualities: Tolerates full shade as well as dry soil; drought resistant

Advice: Best in partial shade, avoid over watering

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS

Telekia speciosa
Ox-eye daisy

Unit: pot
Price: $4

Height: 4-5'
Light: partial to full shade
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: readily self-seeds

Advice: cut to the ground after flowering.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Verbascum ‘Arctic Summer’ mullein

Unit: pot
Price: $4
Height: 4'
Light: full sun
Soil: well-drained
Flowering time: early summer
Container or in-ground: ground

Distinctive Qualities: blooms with masses of soft white flowers, each with delicate yellow filaments. very attractive to pollinators. wonderful plant for making a garden feel uncontrived. dried flowers turn yellow with a honey-like scent used to give aroma to liqueurs and pigment to cosmetics.

Advice: provide adequate soil drainage

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Verbascum ‘Sixteen Candles’
nettle-leaved mullein

Unit: pot
Price: $4

Height: 3'
Light: full sun
Soil: well-drained

Flowering time: early summer

Container or in-ground: ground

Distinctive Qualities: native to central Russia. Deer and drought resistant

Advice: remove spent flower spikes before seed sets to encourage an additional bloom. In addition to self-seeding, may be propagated by root cuttings in late winter to early spring. Susceptible to spider mites in the heat. May need staking. Poorly drained soil is fatal.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Brugmansia x cubensis ‘Charles Grimaldi’
angel’s trumpet

Unit: pot
Price: $15

Height: 6-12 feet
Light: full sun to light shade
Soil: well-drained

Flowering time: summer, fall

Distinctive Qualities: woody trees or shrubs with fragrant pendulous shaped flowers, hence the name.

Advice: can flower all year in frost free regions! All parts of the plant are poisonous if ingested. Layers of mulch can be used to keep roots cool and moist. Need a lot of water when actively growing. Feed monthly with fertilizer spring- fall.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Canna x generalis ‘Ermine’
canna lily

Unit: pot
Price: $15

Height: 48”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: Easy to grow. Prefers hot weather. Spectacular foliage provides interest when not in bloom. Attracts butterflies and hummingbirds. Deer resistant. Flowers bloom for more than 4 weeks.

Advice: Deadhead throughout season for continuous blooms. Fiery flowers look best when placed in contrast with hedges or garden beds.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Canna x generalis ‘Lemon Punch’
canna lily

Unit: pot
Price: $15

Height: 48”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Easy to grow. Prefers hot weather. Spectacular foliage provides interest when not in bloom. Attracts butterflies and hummingbirds. Deer resistant. Flowers bloom for more than 4 weeks.

Advice: Deadhead throughout season for continuous blooms. Fiery flowers look best when placed in contrast with hedges or garden beds.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Canna x generalis ‘Pretoria’
canna lily

Unit: pot
Price: $15

Height: 48”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Easy to grow. Prefers hot weather. Spectacular foliage provides interest when not in bloom. Attracts butterflies and hummingbirds. Deer resistant. Flowers bloom for more than 4 weeks.

Advice: Deadhead throughout season for continuous blooms. Fiery flowers look best when placed in contrast with hedges or garden beds.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Crinum asiaticum var. asiaticum
giant crinum

Unit: pot
Price: $25

Height: 4 feet
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Distinctive Qualities: Attracts butterflies, hummingbirds and bees; all parts are poisonous if ingested; avoid from children and pets

Advice: Consistently water plant but avoid over-watering; Prefers full sun but also protection from hot summers

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Crinum ‘Ellen Bosanquet’
crinum lily

Unit: pot
Price: $20

Height: 24-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Distinctive Qualities: Fragrant; Deer and rabbit resistant

Advice: Intolerant of waterlogging, avoid overwatering; light shade is appreciated during hot summer days

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Crinum kirkii
pajama lily

Unit: pot
Price: $20

Height: 12-36 inches
Light: full sun
Soil: moist, well-drained

Flowering time: late spring to summer

Distinctive Qualities: Deer resistant; Deciduous
Advice: Consistently water plant but avoid over-watering; Prefers full sun but also protection from hot summers

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Crinum
crinum lily

Unit: pot
Price: $20

Height: 24-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Distinctive Qualities: Fragrant; Deer and rabbit resistant

Advice: Intolerant of waterlogging, avoid overwatering; light shade is appreciated during hot summer days

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Dietes grandiflora
butterfly iris

Unit: pot
Price: $15

Height: 2-5 feet
Light: full- partial sun
Soil: well-drained soil or standing water

Flowering time: spring to summer

Distinctive Qualities: Stunning white and purple flowers with grass like shoots.

Advice: Fertilize monthly

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Eucomis comosa ‘Sparkling Burgundy’
pineapple lily

Unit: pot
Price: $12

Height: 24”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: early summer

Container or in-ground: either

Distinctive Qualities: Native to South Africa. The purple flower stalk bears an architecture of flowers that resemble a pineapple. Flowers bloom bottom to top for 6-8 weeks.

Advice: Tolerates some shade. Place in full sun for the best blooms. To overwinter, bring containers inside or store bulbs in dry medium in a cool location.

To order plants, please visit www.snug-harbor.org/plant-sale.
Evolvulus glomeratus

dwarf morning glory

Unit: pot
Price: $9

Height: 12”
Light: full sun
Soil: moist, well-drained, slightly acidic

Flowering time: late spring through fall frost

Container or in-ground: either

Distinctive Qualities: Native to Brazil.

Advice: Tolerates some shade, but becomes leggy and lose
the sheen of its foliage. Place in full sun for the best blooms.
Pinch to create a bushier plant and promote blooming. Once
established, tolerates some drought. Susceptible to root rot.
Apply compost modestly each month.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Fuchsia ‘Sanhanf’
angels’ earrings cascading fuchsia

Unit: pot
Price: $5

Height: 30”
Light: part sun to light shade
Soil: well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: native to Central and South America. Cascades nicely. Attracts bees and hummingbirds.

Advice: does best out of the heat and prefers indirect sunlight. Prefers humidity. Pinch back as new growth appears to promote blooming. Apply compost modestly every couple of weeks. Watch out for fungus by trimming all decaying leaves and stems and any other debris.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Hedychium coronarium
white ginger lily, or butterfly ginger lily

Unit: pot
Price: $15

Height: 6”
Light: full sun to part shade
Soil: moist, well-drained, slightly acidic

Flowering time: early summer

Container or in-ground: either

Distinctive Qualities: A member of the ginger family Zingiberaceae, Hedychium are native to tropical Asia. Strongly scented. Flower spikes extend high, lasting only last for a day.

Advice: Hedychium originates in the rainforests of monsoon regions, used to heavy humidity and heat. Can be overwintered indoors. Compost well in the spring. Seedlings will not bloom until the second year. When the flower is exhausted, cut the stem fully to save the rhizome. Leave the foliage until it dies back, so it can continue to provide energy to the rhizome. Hedychium is classed as an invasive in many areas. Be careful about its location if not containered.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Justicia brandegeana ‘Variegata’
variegated shrimp plant

Unit: pot
Price: $10

Height: 3 feet
Light: full sun to light shade
Soil: sandy, well drained

Flowering time: summer

Distinctive Qualities: balanced with coarser trees or shrubs surrounding

Advice: Fun and unique plant with bright coral, shrimp-like blossoms.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Kalanchoe daigremontiana
mother of thousands

Unit: pot
Price: $6

Height: 3'
Light: full sun
Soil: moist, well drained

Flowering time: grown for foliage

Distinctive Qualities: Incredibly unusual and gorgeous structure. Its unique growth system takes after its common name “mother of thousands”: small plantlets adorn the edges of the larger leaves.

Advice: Water thoroughly but not too often. Before watering, check if the top two inches of soil are dry.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Neomarica gracilis
walking iris

Unit: pot
Price: $12

Height: 1-3 feet
Light: light to full shade
Soil: well-drained

Flowering time: late winter to early spring

Distinctive Qualities: Beautiful white and purple flower.

Advice: Water well in growing season. Allow it to go dormant in winter, watering once monthly.

To order plants, please visit www.snug-harbor.org/plant-sale.
HOUSEPLANTS
Pelargonium x hortatum ‘Appleblossom’
zonal geranium

To order plants, please visit www.snug-harbor.org/plant-sale.

Unit: pot
Price: $6

Height: 2'
Light: full sun
Soil: well drained

Flowering time: late spring to fall

Distinctive Qualities: Grows in shrubby mounds. Flowers appear in clusters atop long stalks throughout the season.

Advice: Provide adequate drainage to avoid stem and root rot. Watch for whiteflies, aphids, and caterpillars.
HOUSEPLANTS
Plectranthus argentatus
spurflower

Unit: pot
Price: $6

Height: 2-3 feet
Light: partial shade
Soil: well-drained

Flowering time: summer

Distinctive Qualities: Soft looking shrub with light blue blooms and fuzzy grey green stems and leaves.

Advice: Avoid poorly drained clay pots. Intolerant of frost.

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
HOUSEPLANTS
Syngonium podophyllum ‘Pink’
arrowshead plant

Unit: pot
Price: $12

Height: 6 feet
Light: partial shade
Soil: well-drained

Flowering time: summer

Distinctive Qualities: Lovely vine plant

Advice: Poisonous to pets! Avoid direct light

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)

Cynara scolymus ‘Imperial Star’
artichoke

Unit: pot
Price: $7

Height: 3-6 feet
Light: full sun
Soil: moist, well-drained

Container or in-ground: large container and outdoors

Distinctive Qualities: Grown and used in many Perisan and Northwest African cuisine.

Advice: Protect from strong winds and avoid overcrowding plant in small spaces

Companion Planting:

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Beta vulgaris ‘Detroit Dark Red’
beets

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: ground

Distinctive Qualities: Staple in Eastern European cuisines. Sweet root that is often cooked/pickled. Leaves can be sauteed. The pigment from the root is often used for dying fabric.

Advice: Keep plants moist to ensure a healthy root harvest.

Companion Planting: onions, silverbeet, kohlrabi, lettuce, cabbage, dwarf beans, chamomile, spinach, chard

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Brassica oleracea ‘Premium Late Flat Dutch’
cabbage

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: ground

Distinctive Qualities: bluish green leaves with creamy light green interior. Heads can reach up to 15 pounds, but are sweeter when harvested earlier. The harvested head can be stored for weeks.

Advice: Water heavily from planting to head formation, then water moderately. Do not overwater past that point to prevent splitting. Plant in compost rich, slightly alkaline soil. Keep snails and slugs off the leaves.

Companion Planting: chamomile, chives, coriander, yarrow, dill, mint, thyme, hyssop, chervil, geranium, sage, oregano.

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Cucumis sativus ‘Marketmore’

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: can either be eaten raw or cooked; attracts pollinators

Advice: Water 1 inch per week. Water consistently, because inconsistent watering can lead to issues with cucumbers.
VEGETABLES (A-Z by common name)
Solanum melongena ‘Black Beauty’
eggplant

Unit: cell pack
Price: $5

Light: full
Soil: moist, well-drained, amended with plenty of compost, slightly acidic

Container or in-ground: ground

Distinctive Qualities: This is a classic heirloom variety, ready to harvest 74 days after transplanting. You can pick halfway to maturity to encourage fruiting.

Advice: wait to plant outdoors until weather is consistently above 60°F. You can help warm the soil by covering the planting area with black plastic to capture the solar energy. Cut a slit in the ground to allow the planting, leaving the plastic in place. Upon transplanting, remove any of the fruit or flowers so the plant focuses on root and stem development while acclimating. Inadequate watering results in a bitter fruit. Water at least an inch of water weekly, under the foliage at ground level, keeping the foliage dry. Watch for flea beetles, chewing pin-sized holes in the leaves. Consider planting a trap crop of radishes next to the eggplant, which the beetles prefer.

To order plants, please visit www.snug-harbor.org/plant-sale.

CLICK HERE TO RETURN TO PLANT LIST
VEGETABLES (A-Z by common name)
Foeniculum vulgare ‘Florence’
fennel

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: ground

Distinctive Qualities: Used in Italian cooking, and by the ancient Egyptian and Chinese for medicinal purposes. Tasty licorice flavor goes well with eggs and fish.

Advice: Easy to grow. Plant in slightly acidic soil with an occasional dose of compost and additional water in the hot summer. Cut back earlier in the season to encourage bushier growth. Deadhead for seed harvest. Do not plant near dill, because cross-pollination results in strangely flavored seeds.

Companion Planting: Fennel’s strong aroma and flavor make it a poor companion plant, although this plant attracts a variety of beneficial insects including ladybuys, syrphid flies, and technic flies among others. Aphids find fennel offensive.
VEGETABLES (A-Z by common name)
Brassica oleracea ‘Nero Di Toscano’
Tuscan kale

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: either

Advice: Plant 18-24” apart in compost-heavy soil.

Companion Planting: beets, celery, herbs, onions, and potatoes.

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)

Allium ampeloprasum ‘Autumn Giant’
leek

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: ground

Distinctive Qualities: Vigorous and fast growing. Mild and delicious flavor when eaten both fresh and cooked.

Advice: Plant in soil with rich compost. Either fill a 6-8” trench with compost and fill up the trench as the leeks grow, or plant at surface level and then hill them up.

Companion Planting: beets, carrots, celery, onions, cabbage, tomatoes, lettuce, strawberries, calendula, nasturtium, and poppies.

To order plants, please visit www.snug-harbor.org/plant-sale.

CLICK HERE TO RETURN TO PLANT LIST
VEGETABLES (A-Z by common name)
Lactuca sativa
lettuce

Unit: cell pack
Price: $5

Light: full to partial shade
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: beets, carrots

Advice: fast-grower, tender, colorful and heat tolerant.
Prefer cool weather and ample water; Protect from heat with shade cloth.

Companion Planting: beets, carrots, parsnips, strawberries, radishes, onions, asparagus, corn

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Cucumis melo ‘Charentais’
melon

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: Could be grown as a container plant if the container is the size of a wine barrel. Mature in 75-90 days.

Advice: Thrive in hot humid conditions; require a lot of growing space

Companion Planting: beans, peas, onions, leeks, chives, garlic, cabbage, broccoli, carrots, kale, okra, cauliflower, spinach, brussel sprouts, lettuce

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Capsicum annuum ‘Etiuda’
sweet pepper

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: great for stuffed peppers, with sweet, crispy, and juicy texture. Ready about 65 days from transplant.

Advice: Plant in a sunny location after the threat of frost has passed. Soak ground every 2-3 days to avoid overwatering.

Companion Planting: carrots, cucumbers, radishes, squash, onions, chives, eggplant, spinach, lettuce, chard

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Capsicum frutescens ‘Kalugeritsa’
hot pepper

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: named for a village of eastern North Macedonia, with heat similar to a jalapeño. Full bodied flavor, great for roasting. Can grow quite tall, so prepare to stake them. Peppers may take time to germinate.

Advice: Plant in a sunny location after the threat of frost has passed. Soak ground every 2-3 days to avoid overwatering. If aphids appear, remove the infected leaves and spray in the late afternoon with water mixed with dish soap. They will remain white until they have fully matured.

Companion Planting: carrots, cucumbers, radishes, squash, onions, chives, eggplant, spinach, lettuce, chard

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Capsicum chinense ‘Red Savina’
hot pepper

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well-drained, slight acidity

Container or in-ground: either

Distinctive Qualities: extremely hot, considered a habañero. Good for eating fresh, drying, or pickling. Fruits are less than 2” in length, with color starting yellow and maturing to red. Can hit 570,000 Scoville units, in contrast to 70,000 for cayennes. Peppers may take time to germinate.

Advice: Plant in a sunny location after the threat of frost has passed. Soak ground every 2-3 days to avoid overwatering. Wear gloves when handling the fruits and seeds.

Companion Planting: carrots, cucumbers, radishes, squash, onions, chives, eggplant, spinach, lettuce, chard

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Beta vulgaris ‘Oriole Orange’
Swiss chard

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Flowering time: late spring

Container or in-ground: either

Distinctive Qualities: Hardy. Harvest from summer to early fall. Both the leaves and stems are eaten. Good substitute for spinach as it withstands the hot summer.

Advice: Avoid clay soil. Provide adequate spacing.

Companion Planting: dwarf beans, onions, kohlrabi

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Beta vulgaris ‘Vulcan’
Swiss chard

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Flowering time: late spring

Container or in-ground: either

Distinctive Qualities: Hardy. Harvest from summer to early fall. Both the leaves and stems are eaten. Good substitute for spinach as it withstands the hot summer.

Advice: Avoid clay soil. Provide adequate spacing.

Companion Planting: dwarf beans, onions, kohlrabi

To order plants, please visit www.snug-harbor.org/plant-sale.
Solanum lycopersicum ‘Bonny Best’
tomato

Unit: pot
Price: $7

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: Produces heavy yields of 8 to 10 ounce red tomatoes. Rich and meaty flavor. A traditional variety used for canning. Fruit is a staple in the cuisines of many cultures. Can also be used to soothe burns and irritations. The inedible leaves can be used to make spray insecticide. Can withstand acidic soil.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES (A-Z by common name)
Solanum lycopersicum ‘Blush Tiger’
tomato

Unit: pot
Price: $7
Light: full sun
Soil: well drained
Container or in-ground: either

Distinctive Qualities: grape-tomato sized, with slightly crunchy texture and balanced, sweet flavor.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit www.snug-harbor.org/plant-sale.
**Solanum lycopersicum ‘German Pink’ tomato**

Unit: pot  
Price: $7

Light: full sun  
Soil: well drained

Container or in-ground: either

Distinctive Qualities: very large, deep pink fruits reaching easily a pound per fruit, with sweet-tart flavor and meaty texture.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
VEGETABLES (A-Z by common name)
Solanum lycopersicum ‘Riesentraube’
tomato

Unit: pot
Price: $7

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: Riesentraube means giant grape. Flavor is similar to beefsteak. Highly prolific.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
VEGETABLES (A-Z by common name)
Solanum lycopersicum ‘Rosella’
tomato

Unit: pot
Price: $7

Light: full sun
Soil: well drained
Container or in-ground: either

Distinctive Qualities: a cherry tomato with firm texture and thin skin. Flavor is acidic and fruity with a slight smoky finish.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit www.snug-harbor.org/plant-sale.
**VEGETABLES (A-Z by common name)**

**Solanum lycopersicum ‘Sart Roloise’ tomato**

- **Unit:** pot
- **Price:** $7

**Light:** full sun  
**Soil:** well drained

**Container or in-ground:** either

**Distinctive Qualities:** beautiful coloring with sweet, fruity flavor complicated with earthy tones and a with meaty texture.

**Advice:** Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

**Companion Planting:** basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
VEGETABLES (A-Z by common name)
Solanum lycopersicum ‘Yellow Brandywine’
tomato

Unit: pot
Price: $7

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: golden beefsteak fruits can reach up to two pounds. Flavor is sweet and acidic.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit www.snug-harbor.org/plant-sale.
HERBS (A-Z by common name)
Ocimum basilicum var. Purpurascens ‘Dark Purple Opal’
purple basil

Unit: cell pack
Price: $5

Light: full sun to partial shade
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: pungent peppery taste with a touch of anise

Advice: Keep soil moist, but avoid over watering and allowing soil to get soggy; fertilize regularly, including in the winter months

Companion Planting: asparagus, oregano, peppers, tomatoes, peppers

To order plants, please visit www.snug-harbor.org/plant-sale.
HERBS (A-Z by common name)
Ocimum basilicum ‘Genovese’
Genovese basil

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: leaves have a spicy, anise-clove flavor, flowers are edible, wonderful as a drink garnish, in salads, and with pasta.

Advice: not drought tolerant, and can be damaged by heat stress.

Companion Planting: most garden groups, improves flavor and growth of tomatoes and lettuce, rosemary, asparagus, broccoli, brussels sprouts, chives, potato, and other tomatoes, not compatible with rue.

To order plants, please visit www.snug-harbor.org/plant-sale.
HERBS (A-Z by common name)
Ocimum basilicum var. Thyrsiflora
Thai sweet basil

Unit: cell pack
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: leaves have a more intense anise flavoring.

Advice: not drought tolerant, and can be damaged by heat stress.

Companion Planting: most garden groups, improves flavor and growth of tomatoes and lettuce, rosemary, asparagus, broccoli, brussels sprouts, chives, potato, and other tomatoes, not compatible with rue.

To order plants, please visit www.snug-harbor.org/plant-sale.
HERBS (A-Z by common name)
Allium tuberosum
garlic chives

Unit: pot
Price: $7

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: leaves have a spicy, anise-clove flavor. flowers are edible. wonderful as a drink garnish, in salads, pasta

Advice: not drought tolerant, and can be damaged by heat stress.

Companion Planting: most garden groups. Improves flavor and growth of tomatoes and lettuce. rosemary, asparagus, broccoli, brussels sprouts, chives, potato, and tomatoes. not compatible with rue.

To order plants, please visit www.snug-harbor.org/plant-sale.
HERBS (A-Z by common name)
Anethum graveolens ‘Bouquet’
dill

Unit: pot
Price: $5

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: leaves have a bright, sweet flavor akin to anise, parsley, and celery combined.

Advice: Requires ample room to grow, can tolerate some shade, prefers full sun; avoid overwatering. Once plants flower, they will begin to bolt, changing the flavor of the leaves to be less aromatic and more bitter.

Companion Planting: asparagus, corn, cucumbers, onion, lettuce, cabbage, brussels sprouts, kohlrabi, broccoli, basil

To order plants, please visit www.snug-harbor.org/plant-sale.
HERBS (A-Z by common name)
Pycnanthemum muticum
mountain mint

Unit: pot
Price: $9

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: Used as butterfly nectar; attracts butterflies; Can treat skin irritation; drought tolerant

Advice: Requires ample room to grow, can tolerate some shade, prefers full sun; avoid overwatering

Companion Planting: other native perennials such as Penstemon

To order plants, please visit www.snug-harbor.org/plant-sale.
HERBS (A-Z by common name)
Petroselinum crispum ‘Giant of Italy’ parsley

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: Used as butterfly nectar; attracts butterflies; Can treat skin irritation; drought tolerant

Advice: Requires ample room to grow, can tolerate some shade, prefers full sun; avoid overwatering. Water when the top inch is dry. Mulch around the plant to keep roots dry.

Companion Planting: tomatoes, chives, carrots, corn, peppers, onions, peas, asparagus
AQUATICS
Canna glauca ‘Pink’
water canna

AVAILABLE BY ADVANCE PURCHASE ONLY

Unit: bare root
Price: $15

Height: 5-6’
Light: full sun
Soil: aquatic, possibly terrestrial

Flowering time: summer

Distinctive Qualities: An herbaceous perennial with blue-green foliage, this grows well in shallow water. This can be grown as a terrestrial with regular watering, especially in extreme heat.

Advice: Allow to stand alone or with contrasting foliage in order to allow this blossom its full, striking effect.

To order plants, please visit www.snug-harbor.org/plant-sale.
AQUATICS
Canna glauca ‘Yellow’
water canna

AVAILABLE BY ADVANCE PURCHASE ONLY

Unit: bare root
Price: $15

Advice: Cover with water 10" or less above the soil

To order plants, please visit www.snug-harbor.org/plant-sale.
NYC Department of Sanitation COMPOST

Unit: forty-pound bag
Price: FREE

Did you know that food scraps and yard waste make up more than 30% of our trash in New York City? The NYC Compost Project reduces waste through composting. This not only keeps items out of the landfills, but also reduce greenhouse gas emissions and creates an important resource for all of us: nutritious compost to amend your soil!

Learn more about reducing your food waste, making compost, improving your environment, and fight climate change by contacting compost@snug-harbor.org.

You can learn more about composting at home or on our site! Become a certified Master Composter!

You can also support composting by dropping your organic waste at a Food Scrap Drop-off site near you. Visit the Drop-off Composting web page to learn where there is a NYC Food Scrap Drop-off Site near you.
