ANNUALS
Agastache aurantiaca 'Arizona Sunset'
red hummingbird mint

Unit: cell pack
Price: $5

Height: 16-18"
Light: full sun
Soil: well drained

Flowering time: summer to fall
Container or in-ground: either

Advice: Can overwinter indoors. Propagate through division and re-pot every 2-3 years. Needs excellent drainage when contained.
ANNUALS
Agastache aurantiaca ‘Navajo Sunset’
red hummingbird mint

Unit: cell pack
Price: $5

Height: 16-18"
Light: full sun
Soil: well drained

Flowering time: summer to fall
Container or in-ground: either

Advice: Can overwinter indoors. Propagate through division and re-pot every 2-3 years. Needs excellent drainage when contained.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Ageratum houstonianum ‘High Tide Blue’
floss flower

Unit: pack of 6
Price: $5

Height: 18-30”
Light: full sun
Soil: light, moist and well-drained

Flowering time: Mid-summer - fall
Container or in-ground: large container or outdoors

Distinctive Qualities: Feathery periwinkle colored flowers add interesting texture to the garden. Tolerant against rabbits and deer; attracts butterflies.

Advice: Avoid watering from directly above.
ANNUALS
Amaranthus tricolor ‘Flaming Fountain’
Joseph’s coat

Unit: cell pack
Price: $5
Height: 24” container, 36” ground
Light: full sun
Soil: moist, well-drained
Flowering time: summer
Container or in-ground: ground
Distinctive Qualities: Leaves and seeds are edible.
Advice: Watch out for aphids!
ANNUALS

Ammi majus
Queen Anne’s lace, bishop’s weed

Unit: cell pack
Price: $5

Height: 40”
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: ground

Distinctive Qualities: Makes lovely dried flowers.

Advice: Do not over-fertilize.

To order plants, please visit www.snug-harbor.org/plant-sale.

CLICK HERE TO RETURN TO PLANT LIST
ANNUALS
Angelonia angustifolia ‘Serena Rose’
summer snapdragon

Unit: cell pack
Price: $5

Height: 16-20 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: mid-spring -summer

Container or in-ground: large container or outdoors

Distinctive Qualities: Rabbit and deer resistant; drought resistant.

Advice: Use compost before planting and light fertilizer once a month.

To order plants, please visit www.snug-harbor.org/plant-sale.

CLICK HERE TO RETURN TO PLANT LIST
ANNUALS
Antirrhinum majus ‘Rocket Gold’
snapdragon

Unit: cell pack
Price: $5

Height: 18-24”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Native to the Mediterranean from Portugal to Turkey where it grows in crevices and corners. Flowers profusely in cool weather and begins to flower from the stalk up, making for long periods of blooming.

Advice: Deadhead blooms to prolong bloom season.
ANNUALS
Antirrhinum majus ‘Rocket Orchid’
snapdragon

Unit: cell pack
Price: $5

Height: 18-24”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: Native to the Mediterranean from Portugal to Turkey where it grows in crevices and corners. Flowers profusely in cool weather and begins to flower from the stalk up, making for long periods of blooming.

Advice: Deadhead blooms to prolong bloom season.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Arctotis hybrid ‘Harlequin Mix’
African daisy

Unit: cell pack
Price: $5

Height: 12-24”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: Large 4 inch wide, bright petals that surround a golden disk. Green lance-shaped leaves. Draught tolerant.

Advice: Plant 12 inches apart in sandy, well-drained soil. Overly moist soils lead to root or stem rot. Use in beds, borders, large containers.
ANNUALS
Asarina scandens ‘Joan Lorraine Blue’
climbing snapdragon

Unit: pot
Price: $9

Height: vine grows to 6’
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Trumpet-shaped flowers are hummingbird favorites. These vines bloom incessantly and add height to a flower garden.

Advice: Vines twine best on thin supports less than 1 inch in diameter.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Catharanthus roseus ‘Cobra Red’ vinca

Unit: cell pack
Price: $5

Height: 36”
Light: full sun to partial shade
Soil: moist

Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: This plant is mildly toxic.
Advice: Pinch plant to encourage bushy growth.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Catharanthus roseus ‘Tattoo Series Papaya’
vinca

Unit: cell pack
Price: $5

Height: 36”
Light: full sun to partial shade
Soil: moist

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: This plant is mildly toxic.

Advice: Pinch plant to encourage bushy growth.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Celosia cristata ‘Chief Persimmon’
Cockscomb

Unit: cell pack
Price: $5

Height: 36-40”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: Bright red coral shaped flowers sit atop tall thick stems and arrow shaped foliage.

Advice: Plant in rich soil with lots of compost.
ANNUALS
Celosia ‘Dragon’s Breath’
plumed cockscomb

Unit: cell pack
Price: $5

Height: up to 30”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: Long-lasting flowers with bronzing foliage.

Advice: Plant in rich soil with lots of compost.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Celosia plumosa ‘Forest Fire’
plumed cockscomb

Unit: cell pack
Price: $5

Height: up to 30"
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: Long-lasting flowers with bronzing foliage.

Advice: Plant in rich soil with lots of compost.
ANNUALS
Celosia plumosa ‘Pampas Plume Gold’
plumed cockscomb

Unit: cell pack
Price: $5

Height: up to 30"
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: Long-lasting flowers with green, spade shaped foliage.

Advice: Plant in rich soil with lots of compost.
ANNUALS
Celosia spicata ‘Flamingo Feather’
plumed cockscob

Unit: cell pack
Price: $5

Height: 8-16”
Light: full sun
Soil: well drained

Flowering time: mid-spring to late summer

Container or in-ground: either

Distinctive Qualities: Blooms blush as they age, heat and drought tolerant once established.

Advice: Plant in rich soil with lots of compost.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cuphea llavea ‘Sriracha Rose’

Unit: cell pack
Price: $5

Height: 14-18”
Light: full sun
Soil: moist, well-drained

Flowering time: summer - fall
Container or in-ground: large container or outdoors

Distinctive Qualities: Multi petaled crimson flowers. Attracts hummingbirds and bees.

Advice: Can tolerate high heat and some drought but does best with regular moisture.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Cynara cardunculus
Cardoon

Unit: pot
Price: $5

Light: full sun
Soil: well drained

Container or in-ground: ground

Distinctive Qualities: A beautifully ornamental plant from Italy. Although it is a delicacy eaten in Europe, in America it is more often celebrated in gardens because of its unique flower shape.

Advice: Do not overwater. Plant in compost rich, slightly alkaline soil.

Companion Planting: peas, sunflowers, tarragon, and members of the cabbage family.
ANNUALs
Dianthus chinensis var. heddewigii ‘Black & White Minstrels’
pinks

Unit: cell pack
Price: $5

Height: 14 inches
Light: full sun to partial sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: large container or outdoors

Distinctive Qualities: drought and deer resistant; attracts butterflies.

Advice: Plants are self-cleaning; no need for dead-heading or trimming at the end of the season.

To order plants, please visit www.snug-harbor.org/plant-sale.
Dichondra argentea ‘Silver Falls’
silver nickel vine

Unit: pot
Price: $8

Height: 4”
Light: full sun
Soil: moist, well-drained

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: A creeping ornamental. Tolerates heat and drought. Can trail 2-4’. Can also provide good ground cover.

Advice: Grow in baskets or containers or over retaining walls to allow for cascading effect. Let soil dry between waterings.
ANNUALS
Echium plantagineum ‘Blue Bedder’
 viper’s bugloss

Unit: cell pack
Price: $5

Height: 16-20 inches
Light: full sun
Soil: well-drained, can poor and dry soil

Flowering time: summer - fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Attracts bees. Drought and deer resistant.

Advice: If you don’t cut the stems after flowering, will easily self-seed. Sap can irritate skin. All parts of the plant are toxic if eaten. Deadhead to extend flowering for months.
ANNUALS
Emilia coccinea ‘Scarlet Magic’
tassel flower

Unit: cell pack
Price: $5

Height: 45-60 inches
Light: full sun
Soil: moist, well-drained

Flowering time: summer-fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Attracts pollinators. Parts of plant are poisonous if ingested.

Advice: Water regularly when first establishing plant, then only plant during dry periods.
ANNUALS
Gazania rigens ‘Big Kiss Red’
treasure flower

Unit: cell pack
Price: $5

Height: 8”
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Vibrantly colored sunflowers. Low maintenance, drought tolerant.

Advice: Don’t worry about this one!
ANNUALS
Gazania rigens ‘Daybreak Red Stripe’
treasure flower

Unit: cell pack
Price: $5

Height: 8”
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Yellow flowers with dark red stripes down the middle of each petal. Low maintenance, drought tolerant.

Advice: Don’t worry about this one!
ANNUALS
Hypoestes phyllostachya ‘Splash Select Red’
polka dot plant

Unit: cell pack
Price: $5

Height: 6”
Light: full sun to shade
Soil: moist, well-drained

Flowering time: foliage

Container or in-ground: either

Distinctive Qualities: Vibrant red and green speckled leaf pattern. Native to Madagascar, this plant grows well in containers and as bedding.

ANNUALS
Impatiens walleriana ‘Candy Orange Star’
impatiens

Unit: cell pack
Price: $5

Height: 15”
Light: partial shade to shade
Soil: moist

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Striped orange and white petal pattern. Low maintenance. Tolerates heavy shade. Long flowering season.

Advice: Watch for slugs. Great for a hanging basket or edging a path.
ANNUALS
Ipomoea alba
moonflower

Unit: pot
Price: $4

Height: 10-15 inches
Light: full sun
Soil: moist, well-drained

Flowering time: summer-fall

Container or in-ground: large containers or outdoors

Distinctive Qualities: White, hibiscus-like flowers open at night. Can be grown as climbing plants and are deer resistant. Also poisonous to humans if ingested.

Advice: Does not require much space, water regularly during growing season.
ANNUALS
Ipomoea batatas ‘Marguerite’
sweet potato vine

Unit: pot
Price: $6

Height: 6”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: foliage

Container or in-ground: either

Distinctive Qualities: Heart-shaped leaves, a prolific grower.

Advice: Tolerant of drought but prefer to be moist. Fertilize monthly. Can be overwintered indoors by storing dormant tubers in a cool, dry place and replanting in spring. Great for filling in borders and accenting container arrangements.
ANNUALS
Ipomoea batatas ‘Emerald Lace’
sweet potato vine

Unit: pot
Price: $6

Height: 6"
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: foliage

Container or in-ground: either

Distinctive Qualities: A prolific grower.

Advice: Tolerant of drought but prefer to be moist.
Fertilize monthly. Can be overwintered indoors by storing dormant tubers in a cool, dry place and replanting in spring. Great for filling in borders and accenting container arrangements.
ANNUALS
Ipomoea batatas ‘Midnight Lace’
sweet potato vine

Unit: pot
Price: $6

Height: 6”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: foliage

Container or in-ground: either

Distinctive Qualities: Leathery purple/black foliage. A prolific grower.

Advice: Tolerant of drought but prefer to be moist. Fertilize monthly. Can be overwintered indoors by storing dormant tubers in a cool, dry place and replanting in spring. Great for filling in borders and accenting container arrangements.
ANNUALS
Ipomoea purpurea ‘Venice Blue’
morning glory

Unit: pot
Price: $4

Height: 6’
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: large containers or outdoors

Distinctive Qualities: Striated purple and white flowers with violet center. Drought tolerant; attracts butterflies and hummingbirds

Advice: Will self-seed, remove plants in late fall to avoid this; avoid over watering.

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).

[CLICK HERE TO RETURN TO PLANT LIST]
ANNUALS
Ipomoea purpurea 'Heavenly Blue'
morning glory

Unit: pot
Price: $4

Height: 6’
Light: full sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: large containers or outdoors

Distinctive Qualities: Attracts butterflies and hummingbirds; poisonous when ingested, keep away from pets and children. Also drought resistant.

Advice: Can tolerate a wide range of soil, not deer resistant. Keep soil moist until well established.
Lavatera trimestris ‘Hot Lips’
rose mallow

Unit: pot
Price: $6

Height: 3-6’
Light: full sun
Soil: moist, well-drained

Flowering time: midsummer until the first frost.

Container or in-ground: either, but needs excellent drainage in pots

Distinctive Qualities: Impressive, shrubby plant with rich, green foliage and 4 inch satiny, hibiscus-like blooms. Magnet for hummingbirds, butterflies, and various insects. Tolerates partial shade.

Advice: Plant early, but not too early as it won’t survive frost. Lavatera has a long root system, so plant them in a permanent location where they won’t require transplanting.
ANNUALS
Limonium sinuatum ‘Fortress Series Heavenly Blue’
Statice

Unit: cell pack
Price: $5

Height: 24”-30”
Light: full sun
Soil: lightly moist, well-drained

Flowering time: early summer

Container or in-ground: either

Distinctive Qualities: Small blue and white flowers form in a bunch atop long stalks. Flowers attract butterflies, heat and drought tolerant, low maintenance. Strong stems are perfect for cut flowers.

Advice: Deadheading will extend the bloom period.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Monarda lambada
lambada bee balm

Unit: pot
Price: $5

Height: 21-30 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer-fall

Container or in-ground: container or outdoors, good for overwintering.

Distinctive Qualities: Drought and heat tolerant; attracts bees and hummingbirds. Leaves and flowers are fragrant.

Advice: Good for overwintering, great for cut flowers

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Nicotiana mutabilis ‘Marshmallow’
flowering tobacco

Unit: pot
Price: $6

Height: 4’
Light: sun to partial shade
Soil: moist

Flowering time: summer to fall

Container or in-ground: either

Advice: Keep plants away from pets as all parts of the plant are poisonous if ingested.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Nicotiana langsdorffii ‘Lemon Tree’
flowering tobacco

Unit: cell pack
Price: $5

Height: 4’
Light: partial shade to shade
Soil: moist

Flowering time: summer to fall
Container or in-ground: either

Advice: Do not plant near vegetable garden with nightshades (tomato, eggplant, pepper).

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Oxypetalum caeruleum 'Heaven Born'
blue-flowered milkweed
(new: Tweedia caerulea)

Unit: cell pack
Price: $5

Height: 2-3'
Light: full sun to partial shade
Soil: moist, well drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Can vine up to 10’ with support. Long summer bloom period. Attracts bees and smallinators. This is the only blue-flowered milkweed. Leaves turn deep red in fall.

Advice: Watch for milkweed bugs in late summer.
ANNUALS
Portulaca grandiflora ‘Sundial Peach’
moss rose

Unit: cell pack
Price: $5

Height: 4-6 inches
Light: full sun
Soil: average, well drained soil

Flowering time: summer-fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Drought and heat resistant, ideal for xeriscape.

Advice: Will self-seed, remove plants in late fall to avoid this; avoid over watering.
ANNUALS
Portulaca grandiflora ‘Tequila Peppermint’
moss rose

Unit: cell pack  
Price: $5

Height: 6 inches  
Light: full sun  
Soil: average, well drained soil

Flowering time: summer-fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Speckled pink and white flowers with yellow pom-pom like center. Drought and heat resistant, ideal for xeriscape

Advice: Will self-seed, remove plants in late fall to avoid this; avoid over watering.
ANNUALS
Portulaca oleracea ‘Toucan Scarlet’ purslane

Unit: cell pack
Price: $5

Height: 3-10 inches
Light: full sun
Soil: average, well drained soil

Flowering time: spring-fall

Container or in-ground: large container or outdoors

Distinctive Qualities: Has been grown as food and for medicinal purposes for 4,000 years; drought resistant

Advice: One deep watering weekly is advised; too much shade can cause no flowers to bloom.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Salvia coccinea ‘Coral Nymph’
hummingbird sage

Unit: cell pack
Price: $5

Height: 18”
Light: full sun
Soil: well-drained

Flowering time: summer to fall

Container or in-ground: either

Advice: Easy to grow.
ANNUALS
Salvia splendens ‘Lighthouse Purple’
scarlet sage

Unit: cell pack
Price: $5

Height: 30”
Light: full sun
Soil: well-drained

Flowering time: summer to fall

Container or in-ground: either

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Salvia splendens ‘Yvonne’s Giant’
scarlet sage

Unit: cell pack
Price: $5

Height: 30”
Light: full sun
Soil: well-drained

Flowering time: summer to fall

Container or in-ground: either

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Solenostemon scutellarioides ‘Black Dragon’
coleus

Unit: cell pack
Price: $5

Height: 18”
Light: full sun to shade
Soil: moist

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: Low maintenance. Grown for distinctive leaves.

Advice: Containered plants can be overwintered inside.

To order plants, please visit www.snug-harbor.org/plant-sale.
ANNUALS
Solenostemon scutellarioides ‘Henna’ coleus

Unit: one pot
Price: $9

Height: 18”
Light: full sun to shade
Soil: moist

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: Low maintenance. Grown for distinctive leaves.

Advice: Containered plants can be overwintered inside.

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
ANNUALS
Solenostemon scutellarioides 'Kong Series Red' coleus

Unit: cell pack
Price: $5

Height: 18”
Light: full sun to shade
Soil: moist

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: Low maintenance. Grown for distinctive leaves.

Advice: Containered plants can be overwintered inside.
ANNUALS
Solenostemon scutellarioides ‘Kong Series Salmon Pink’ coleus

Unit: cell pack
Price: $5

Height: 18”
Light: full sun to shade
Soil: moist

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: Low maintenance. Grown for distinctive leaves.

Advice: Containered plants can be overwintered inside.
ANNUALS
Solenostemon scutellarioides ‘Rustic Red’ coleus

Unit: cell pack
Price: $5

Height: 18”
Light: full sun to shade
Soil: moist

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: Low maintenance. Grown for distinctive leaves.

Advice: Containered plants can be overwintered inside.
ANNUALS
Solenostemon scutellarioides ‘Sun Chocolate Mint’
coleus

Unit: pot
Price: $6

Height: 18”
Light: full sun to shade
Soil: moist

Flowering time: grown for foliage

Container or in-ground: either

Distinctive Qualities: Low maintenance. Grown for distinctive leaves.

Advice: Containered plants can be overwintered inside.

PERENNIALS/BIENNIALS
Alchemilla mollis
lady’s mantle

Unit: pot
Price: $9

Height: 12-18”
Light: partial shade to shade
Soil: moist, well drained

Flowering time: late spring

Container or in-ground: either

Advice: Can become invasive if it finds the perfect spot in your garden. Remove spent flower stems to prevent self-seeding and to encourage a late summer rebloom.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Allium tuberosum
garlic chives

Unit: pot
Price: $7

Height: 3-4'
Light: full sun
Soil: well drained

Flowering time: early summer

Container or in-ground: ground

Distinctive Qualities: Good fresh cut flowers and dried flowers. Drought tolerant.

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Anemone tomentosa
wind flower

Unit: pot
Price: $9

Height: 3-4'
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer - fall

Container or in-ground: in-ground

Distinctive Qualities: Attracts butterflies; Deer, rabbit resistant; Can tolerate wet or salty soil; Eating can cause upset stomach and may cause irritation to the skin.

Advice: Can become a nuisance in bed; requires ample space to grow.
PERENNIALS/BIENNIALS
Aquilegia caerulea ‘Red Hobbit’
columbine

Unit: pot
Price: $4

Height: 24”
Light: partial shade
Soil: moist, well-drained

Flowering time: late spring to summer

Container or in-ground: either

Distinctive Qualities: prolific self-seeder. Attracts hummingbirds and butterflies; Deer, rabbit resistant; Can tolerate wet soil; Eating can cause upset stomach and may cause irritation to the skin.

Advice: fails in poorly drained soil. Deadhead to promote blooming. Cut to the ground in midsummer when the foliage declines.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Aster oblongifolius
aromatic aster

Unit: pot
Price: $9

Height: 3-4’
Light: full sun to light shade
Soil: well drained

Flowering time: late summer through fall

Container or in-ground: either

Distinctive Qualities: attracts bees and butterflies, great root structure for erosion control, deer resistant, great for cut flowers, easily reseeds.

Advice: plants will stretch in less light. Leave standing over the winter and cut back to 1-2” above ground. If foliage shows signs of mildew, but back the immediately and compost.
PERENNIALS/BIENNIALS
Aster laevis ‘Bluebird’
smooth aster

Unit: pot
Price: $9

Height: 3-4’
Light: full sun to light shade
Soil: well drained

Flowering time: late summer through fall

Container or in-ground: either

Distinctive Qualities: attracts bees and butterflies, great root structure for erosion control, deer resistant, great for cut flowers, easily reseeds.

Advice: plants will stretch in less light. Leave standing over the winter and cut back to 1-2” above ground. If foliage shows signs of mildew, but back the immediately and compost.
PERENNIALS/BIENNIALS
Campanula carpatica ‘Deep Blue’
Carpathian bellflower

Unit: pot
Price: $4

Height: 8”
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: midsummer - fall

Container or in-ground: either

Distinctive Qualities: low growing, not an aggressive runner. Attracts hummingbirds. Deadhead to promote blooming.

Advice: mulch generously to keep roots cool, watch out for slugs and fungus.
PERENNIALS/BIENNIALS  
Campanula thyrsoides  
yellow bellflower

Unit: pot  
Price: $4

Height: 12-18”  
Light: full sun to partial sun  
Soil: moist, well-drained

Flowering time: mid to late summer

Container or in-ground: either

Distinctive Qualities: low maintenance, fragrant, long-lasting, deer tolerant.

Advice: moderately apply compost twice monthly.

To order plants, please visit www.snug-harbor.org/plant-sale.

PERENNIALS/BIENNIALS
Campanula cochleariifolia ‘Advance Blue’
earleaf bellflower

Unit: pot
Price: $4

Height: 6"
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: late spring to midsummer

Container or in-ground: in-ground

Distinctive Qualities: low growing, not an aggressive runner. Rabbit resistant.

Advice: good for groundcover and underplantings, very low-maintenance plant.
PERENNIALS/BIENNIALS
Coreopsis tripteris
tall tickseed

Unit: pot
Price: $9

Height: 2-8'
Light: full sun
Soil: slightly moist, well-drained

Flowering time: summer-fall

Container or in-ground: either

Distinctive Qualities: Attracts butterflies; deer and drought resistant.

Advice: Protect from strong winds and overly moist soil; deadheading of spend flowers will encourage new blooms and avoid self-seeding.
PERENNIALS/BIENNIALS
Coreopsis verticillata 'Zagreb'
threadleaf coreopsis, or whorled tickseed

Unit: pot
Price: $9
Height: 12-15 inches
Light: full to partial sun
Soil: moist, well-drained
Flowering time: summer
Container or in-ground: either
Distinctive Qualities: Attracts butterflies; deer, drought and dry soil resistant.
Advice: Avoid overwater; plant enjoys dry to medium soil moisture; Deadhead plant to promote new growth.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Crambe cordifolia
colewort

Unit: pot
Price: $5
Height: 3’
Light: full sun
Soil: well drained
Flowering time: early summer
Container or in-ground: ground
Distinctive Qualities: Showy, fragrant white flowers.
Advice: Foliage depreciates rapidly if soils dry out. May need staking. Requires 4' space.
PERENNIALS/BIENNIALS
Darmera peltata
umbrella plant

Unit: pot
Price: $10

Height: 3-5'
Light: partial to full shade
Soil: moist, well-drained

Flowering time: spring

Container or in-ground: either

Distinctive Qualities: Grown for its unusual foliage. Splendid rhizomatous herbaceous perennial with large, glossy rounded leaves, up to 18" across that are paler beneath than above. In the spring, before the foliage emerges, clusters of pale pink to white flowers arise on tall bare stems. The toothed leaves turn red in the fall. Good for shaded, boggy areas along ponds and streams. Can act as a marginal water plant and can be used to stabilize marshy banks. Pest and disease free.

Advice: Prefers partial shade but will also succeed in full sun if soil remains very moist. Cut back after flowering propagate by seed or by division in spring.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Echinops bannaticus ‘Blue Glow’
globe thistle

Unit: pot
Price: $5

Height: 3’
Light: full sun to partial shade
Soil: not picky, but well drained

Flowering time: July to August

Container or in-ground: either

Distinctive Qualities: deer, drought, and rabbit tolerant. Attracts bees and butterflies.

Advice: tolerates a wide range of soils, deadheading the flowers will extend the bloom period and prevent self-seeding. Cut flowers before they open to preserve by drying upside down.
PERENNIALS/BIENNIALS
Helenium autumnale ‘Red Shades’
autumn sneezeweed

Unit: pot
Price: $4

Height: 6-8 feet
Light: full to partial sun
Soil: moist, well-drained

Flowering time: late summer through fall

Container or in-ground: either

Distinctive Qualities: tolerant of any soil conditions, attracts butterflies, deer tolerant. Well suited for cut flowers. Used to make snuff to encourage sneezing, which was believed to force evil spirits to leave one’s body.

Advice: deadhead to extend flowering season. Once flowering is over, cut the plant down.

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
PERENNIALS/BIENNIALS
Iris dichotoma
vesper lily

Unit: pot
Price: $9

Height: 4'
Light: full sun
Soil: moist, well-drained

Flowering time: late summer

Container or in-ground: either

Distinctive Qualities: These flowers open in the late afternoon to early evening. Native to Siberia, Mongolia, and China. Self-seeding. Seedlings flower in the first year.

Advice: easy to grow. drought tolerant but prefers regular watering. May need staking.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Iris domestica
blackberry lily

Unit: pot
Price: $9

Height: 4'
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: These flowers open in the late afternoon to early evening. Native to Siberia, Mongolia, and China.

Advice: easy to grow. drought tolerant but prefers regular watering. May need staking.
PERENNIALS/BIENNIALS
Liriope muscari ‘Variegata’
lilyturf

Unit: pot
Price: $6

Height: 12-24 inches
Light: full to partial sun or shade
Soil: moist, well-drained

Flowering time: summer-fall

Container or in-ground: either

Distinctive Qualities: Once established, plant is deer, rabbit, heat, humidity and drought resistant.

Advice: Performs best in light but can tolerate full shade, although amount of light will affect foliage; Protect from dry, cold wind.
PERENNIALS/BIENNIALS
Lupinus polyphyllus ‘Governor Blue’
Lupine

Unit: pot
Price: $5

Height: 3–4ft.
Light: full sun
Soil: moist

Flowering time: late spring, early summer

Container or in-ground: either

Distinctive Qualities: Showy spikes of densely packed, sweetly scented ultramarine blue and white flowers rise on sturdy stems above bushy clumps of palm shaped bright green leaves. Flowers open from the bottom to the top and, therefore, have a long blooming period. Deer and rabbit resistant; attracts hummingbirds, bees and butterflies.

Advice: For visual impact, plant in groups. Deadhead to avoid self-seeding; do not cut back in the fall. Mulch to keep roots cool. Toxic to animals and humans if ingested.
PERENNIALS/BIENNIALS
Lupinus polyphyllus ‘Chandelier Yellow’
Lupine

Unit: pot
Price: $5

Height: 3–4 ft.
Light: full sun
Soil: moist

Flowering time: late spring, early summer

Container or in-ground: either

Distinctive Qualities: Showy spikes of densely packed, sweetly scented ultramarine blue and white flowers rise on sturdy stems above bushy clumps of palm shaped bright green leaves. Flowers open from the bottom to the top and, therefore, have a long blooming period. Deer and rabbit resistant; attracts hummingbirds, bees and butterflies.

Advice: For visual impact, plant in groups. Deadhead to avoid self-seeding; do not cut back in the fall. Mulch to keep roots cool. Toxic to animals and humans if ingested.
PERENNIALS/BIENNIALS
Lychnis coronaria ‘Atrosanguinea’
rose campion

Unit: pot
Price: $4

Height: 2-3'
Light: full sun to partial shade
Soil: moist

Flowering time: early summer

Container or in-ground: either

Distinctive Qualities: attracts pollinators, white-gray flowering stalks, long-blooming, deer resistant.

Advice: Comfortable in shade. Propagates by root division.
PERENNIALS/BIENNIALS
Lychnis x haageana ‘Molten Lava’
Haages catchfly

Unit: pot
Price: $8

Height: 8-10 in.
Light: full sun to partial shade
Soil: moist

Flowering time: late spring to early summer

Container or in-ground: either

Distinctive Qualities: Large, vibrant, red-orange flowers are 2” and sit atop short-statured, chocolate-bronzed foliage. Attracts butterflies and is deer resistant. Makes beautiful cut flowers.

Advice: Comfortable in shade. Propagates by root division.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Lysimachia ciliata ‘Purpurea’
fringed loosestrife

Plant type: perennial
Unit: one pot
Price: $8
Height: 2-3’
Light: full sun to partial shade
Soil: moist
Flowering time: early summer
Container or in-ground: either
Distinctive Qualities: attracts pollinators.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Lysimachia nummularia ‘Aurea’
golden creeping Jenny

Unit: pot
Price: $5

Height: 3-6”
Light: full sun to partial shade
Soil: moist

Flowering time: early summer

Container or in-ground: either

Distinctive Qualities: Profuse, cup shaped, solitary yellow flowers appear along stems throughout the summer. Grows along water banks, roadsides, and other moist, undisturbed areas.

Advice: Comfortable in shade. Roots will form where leaf nodes come into contact with soil. Closely monitor for unwanted spread.
PERENNIALS/BIENNIALS
Maclaya cordata
plume poppy

Unit: pot
Price: $9

Height: 6-8 feet
Light: full to partial sun
Soil: moist, well drained

Flowering time: summer-fall

Container or in-ground: either

Distinctive Qualities: Deer and rabbit tolerant.

Advice: Once established, can form a large colony; remove unwanted shoots in spring; cut down base in the fall.
Monarda didyma ‘Raspberry Wine’
bee balm

Unit: pot
Price: $9

Height: 36-48 inches
Light: full sun to partial shade
Soil: moist, well drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: Attracts pollinators such as butterflies, hummingbirds and bees; deer and rabbit resistant.

Advice: Keep soil moist and protect from extreme weather including cold, wet winters and hot, dry summer.
PERENNIALS/BIENNIALS

Musa basjoo
hardy Japanese banana

Unit: pot
Price: $35

Height: 6-14’
Light: full sun
Soil: moist, well drained

Flowering time: grown for its foliage

Container or in-ground: either

Distinctive Qualities: Native to the Ryuku Islands, near Japan. Large and fast-growing.

Advice: Cover over with mulch in winter. Needs plenty of space.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Ophiopogon planiscapus ‘Nigescens’
black mondo grass

Plant Type: perennial

Unit: one pot
Price: $12

Height: 6-8 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: spring-winter

Container or in-ground: either

Distinctive Qualities: Deer, rabbit, and drought tolerant; Considered to be an adaptable plant.

Advice: grows best in rich, slightly acidic, well-drained soil; Avoid drying or overwatering.
PERENNIALS/BIENNIALS
Patrinia scabiosifolia
golden valerian

Unit: pot
Price: $4

Height: 24-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer through fall

Container or in-ground: either

Distinctive Qualities: native to eastern Asia, considered one of the Seven Flowers of Autumn. Deer, rabbit and drought tolerant; Attracts bees. Considered to be an adaptable plant. Self-seeding. Pleasant fragrance.

Advice: grows best in rich, slightly acidic, well-drained soil; Avoid drying or overwatering.
Persicaria polymorpha

Unit: one pot  
Price: $10

Height: 3-5'  
Light: full to partial sun  
Soil: moist, well-drained

Flowering time: summer-fall

Container or in-ground: either

Distinctive Qualities: Once established, plant is deer, heat, humidity and resistant; plant may cause irritation if ingested or if contacted on skin, keep away from children and pets.

Advice: Requires ample room to grow, low maintenance, avoid overwatering.

Plant Type: perennial

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Phlomis russeliana
Turkish sage

Unit: pot
Price: $4

Height: 2-3'
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: ground

Distinctive Qualities: Upright herbaceous perennial of the mint family, native to open woods in Turkey and Syria. Fragrant sage-like leaves and whirling, sculptural flowers make excellent additions to cut arrangements. Attracts birds and butterflies. Deer tolerant. Tolerates dry soil.

Advice: Easy to grow in dry, sunny areas.
PERENNIALS/BIENNIALS
Phlomis tuberosa
tuberous Jerusalem sage

Unit: pot
Price: $9

Height: 4’
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: ground

Distinctive Qualities: Attracts birds and butterflies. Deer tolerant. Native to the Himalayas. Roots can be cooked and eaten.

Advice: Easy to grow. Grows best protected from strong winds.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Polygonatum odoratum ‘Variegatum’
Solomon’s seal

Unit: pot
Price: $10

Height: 2-3’
Light: partial shade to shade
Soil: moist, well drained

Flowering time: spring

Container or in-ground: either

Distinctive Qualities: Fragrant flowers followed by pendulous blue-black berries in fall. Drought and shade tolerant.

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Stachys byzantina ‘Silver Carpet’
lambs’ ears

Unit: pot
Price: $6

Height: 3-6”
Light: full sun
Soil: moist, well-drained

Flowering time: rarely flowers

Container or in-ground: ground

Distinctive Qualities: Thick, velvety silver-gray leaves form a rapidly spreading mat 4-6” off the ground. Provides interesting texture and color to border and rock gardens. Leaves are evergreen in warm climates but do not withstand harsh winters.

Advice: Easy to grow. Divide when necessary. Remove flowering stems to enhance ground cover effect. Drought tolerant, avoid overwatering. Too much shade impedes leaf drying and promotes disease.

To order plants, please visit www.snug-harbor.org/plant-sale.
PERENNIALS/BIENNIALS
Symphytum grandiflorum
comfrey

Unit: pot
Price: $9

Height: 18 inches
Light: full sun to partial shade
Soil: moist, well-drained

Flowering time: spring-summer

Container or in-ground: either

Distinctive Qualities: Tolerates full shade as well as dry soil; drought resistant.

Advice: Best in partial shade, avoid over watering.
PERENNIALS/BIENNIALS
Telekia speciosa
Ox-eye daisy

Unit: pot
Price: $4

Height: 4-5'
Light: partial to full shade
Soil: moist, well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: readily self-seeds.

Advice: cut to the ground after flowering, protect from the wind, deadhead to promote blooming and reduce self-seeding.
TENDER PERENNIALS AND HOUSEPLANTS
Canna x generalis ‘Australia’
canna lily

Unit: one pot
Price: $15

Height: 36”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Easy to grow. Prefers hot weather. Spectacular foliage provides interest when not in bloom. Attracts butterflies and hummingbirds. Deer resistant. Flowers bloom for more than 4 weeks.

Advice: Deadhead throughout season for continuous blooms. Fiery flowers look best when placed in contrast with hedges or garden beds.

To order plants, please visit www.snug-harbor.org/plant-sale.

CLICK HERE TO RETURN TO PLANT LIST
TENDER PERENNIALS AND HOUSEPLANTS
Canna x generalis ‘Cleopatra’
canna lily

Unit: pot
Price: $15

Height: 48”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Easy to grow. Prefers hot weather. Spectacular foliage provides interest when not in bloom. Attracts butterflies and hummingbirds. Deer resistant. Flowers bloom for more than 4 weeks.

Advice: Deadhead throughout season for continuous blooms. Fiery flowers look best when placed in contrast with hedges or garden beds.

To order plants, please visit www.snug-harbor.org/plant-sale.
TENDER PERENNIALS AND HOUSEPLANTS
Canna x generalis ‘Lemon Punch’
canna lily

Unit: pot
Price: $15
Height: 48”
Light: full sun
Soil: moist, well-drained
Flowering time: summer to fall
Container or in-ground: either

Distinctive Qualities: Easy to grow. Prefers hot weather. Spectacular foliage provides interest when not in bloom. Attracts butterflies and hummingbirds. Deer resistant. Flowers bloom for more than 4 weeks.

Advice: Deadhead throughout season for continuous blooms. Fiery flowers look best when placed in contrast with hedges or garden beds.

Canna x generalis ‘Pretoria’
canna lily

Unit: pot
Price: $15

Height: 48”
Light: full sun
Soil: moist, well-drained

Flowering time: summer to fall

Container or in-ground: either

Distinctive Qualities: Easy to grow. Prefers hot weather. Spectacular foliage provides interest when not in bloom. Attracts butterflies and hummingbirds. Deer resistant. Flowers bloom for more than 4 weeks.

Advice: Deadhead throughout season for continuous blooms. Fiery flowers look best when placed in contrast with hedges or garden beds.
Crinum asiaticum var. asiaticum
giant crinum

Unit: pot
Price: $25

Height: 4 feet
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Distinctive Qualities: Attracts butterflies, hummingbirds and bees; all parts are poisonous if ingested; avoid from children and pets.

Advice: Consistently water plant but avoid over-watering; Prefers full sun but also protection from hot summers.
TENDER PERENNIALS AND HOUSEPLANTS
Crinum kirkii
pajama lily

Unit: pot
Price: $20

Height: 12-36 inches
Light: full sun
Soil: moist, well-drained

Flowering time: late spring to summer

Distinctive Qualities: Deer resistant; Deciduous.

Advice: Consistently water plant but avoid over-watering; Prefers full sun but also protection from hot summers.

To order plants, please visit www.snug-harbor.org/plant-sale.
TENDER PERENNIALS AND HOUSEPLANTS
Crinum ‘Ellen Bosanquat’
Crinum lily

Unit: pot
Price: $20

Height: 24-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Distinctive Qualities: Fragrant; Deer and rabbit resistant.

Advice: Intolerant of waterlogging, avoid overwatering; light shade is appreciated during hot summer days.

To order plants, please visit www.snug-harbor.org/plant-sale.
Crinum lily

Unit: pot
Price: $20

Height: 24-36 inches
Light: full to partial sun
Soil: moist, well-drained

Flowering time: summer

Distinctive Qualities: Fragrant; Deer and rabbit resistant.

Advice: Intolerant of waterlogging, avoid overwatering; light shade is appreciated during hot summer days.

TENDER PERENNIALS AND HOUSEPLANTS
Dietes grandiflora
butterfly iris or fortnight lily

Unit: pot
Price: $15

Height: 2-5 feet
Light: full- partial sun
Soil: well-drained soil or standing water

Flowering time: spring to summer

Distinctive Qualities: Stunning white and purple flowers with grass like shoots.

Advice: Fertilize monthly.
TENDER PERENNIALS AND HOUSEPLANTS
Eucharis amazonica (now: Urceolina amazonica)
Amazon lily

Unit: pot
Price: $12

Height: 18-24”
Light: partial shade
Soil: moist, well-drained

Flowering time: early summer

Container or in-ground: either

Distinctive Qualities: Bulbous tropical plant of the Amaryllis family. Clusters of waxy, white, daffodil-like flowers bloom atop long stems. Flowers are fragrant. Leaves are evergreen and attractive when flowers are not in bloom.

Advice: No direct sun. Bulbs do not like to be disturbed. Does not tolerate temperatures below 55 degrees. Slugs and snails are attracted to foliage. Mites and other bugs can be problematic. Keep bulbs well drained to avoid rot. Best flowering occurs when roots are pot-bound.
Evolvulus glomeratus

dwarf morning glory

Unit: pot
Price: $9

Height: 12”
Light: full sun
Soil: moist, well-drained, slightly acidic

Flowering time: late spring through fall frost

Container or in-ground: either

Distinctive Qualities: Native to Brazil.

Advice: Tolerates some shade but becomes leggy and lose the sheen of its foliage. Place in full sun for the best blooms. Pinch to create a bushier plant and promote blooming. Once established, tolerates some drought. Susceptible to root rot. Apply compost modestly each month.
TENDER PERENNIALS AND HOUSEPLANTS

Ficus pumila
creeping fig

Unit: pot
Price: $5

Height: 30”
Light: part sun to light shade
Soil: well-drained

Flowering time: none

Container or in-ground: either

Distinctive Qualities: Vigorous, fast-growing evergreen vine. Will climb over walls, posts, and other structures by adhesive aerial rootlets. Juvenile foliage consists of heart shaped leaves. Mature foliage can bear hairy, pear-shaped fruits that emerge green and ripen to purple.

Advice: Water regularly during the growing season. Avoid overwatering. Reduce watering from fall to late winter. Prune as needed.
TENDER PERENNIALS AND HOUSEPLANTS

Fuchsia ‘Sanihanf’
angels’ earrings cascading fuchsia

Unit: pot
Price: $5

Height: 30"
Light: part sun to light shade
Soil: well-drained

Flowering time: summer

Container or in-ground: either

Distinctive Qualities: native to Central and South America. Cascades nicely. Attracts bees and hummingbirds.

Advice: does best out of the heat and prefers indirect sunlight. Prefers humidity. Pinch back as new growth appears to promote blooming. Apply compost modestly every couple of weeks. Watch out for fungus by trimming all decaying leaves and stems and any other debris.
TENDER PERENNIALS AND HOUSEPLANTS

Justicia brandegeana ‘Variegata’
variegated shrimp plant

Unit: pot
Price: $10

Height: 3 feet
Light: full sun to light shade
Soil: sandy, well drained

Flowering time: summer

Distinctive Qualities: Fun and unique plant with bright coral, shrimp-like blossoms.

Advice: Balance with coarser trees or shrubs surrounding
Kalanchoe daigremontiana
mother of thousands

Unit: pot
Price: $6

Height: 3’
Light: full sun
Soil: moist, well drained

Flowering time: grown for foliage

Distinctive Qualities: Incredibly unusual and gorgeous structure. Its unique growth system takes after its common name “mother of thousands”: small plantlets adorn the edges of the larger leaves.

Advice: Water thoroughly but not too often. Before watering, check if the top two inches of soil are dry.
TENDER PERENNIALS AND HOUSEPLANTS
Neomarica gracilis
walking iris

Unit: pot
Price: $12

Height: 1-3 feet
Light: light to full shade
Soil: well-drained

Flowering time: late winter to early spring

Distinctive Qualities: Beautiful white and purple flower.

Advice: Water well in growing season. Allow it to go dormant in winter, watering once monthly.

To order plants, please visit www.snug-harbor.org/plant-sale.
TENDER PERENNIALS AND HOUSEPLANTS
Pelargonium peltatum ‘Hot Pink’
ivy geranium

Unit: pot
Price: $6

Height: 1-2’
Light: full sun to partial shade
Soil: well drained

Flowering time: late spring to fall

Distinctive Qualities: Thick, lobed, medium green, ivy-like leaves and clusters of single or double hot pink flowers. Flowers appear throughout the growing season.

Advice: Deadhead spent flowering stems. Pinch stems to prevent leggedness and promote bushiness. Watch for oedema, a physiological leaf problem in which brownish water blisters appear on leaf surfaces, usually as a result of overwatering. Watch for whiteflies, aphids, and caterpillars. Provide adequate drainage to avoid stem and root rot.
Pelargonium x hortatum ‘Appleblossom’
zonal geranium

Unit: pot
Price: $6

Height: 2’
Light: full sun
Soil: well drained

Flowering time: late spring to fall

Distinctive Qualities: Grows in shrubby mounds. Flowers appear in clusters atop long stalks throughout the season.

Advice: Provide adequate drainage to avoid stem and root rot. Watch for whiteflies, aphids, and caterpillars.
TENDER PERENNIALS AND HOUSEPLANTS

Plectranthus argentatus
spurflower

Unit: pot
Price: $6

Height: 2-3 feet
Light: partial shade
Soil: well-drained

Flowering time: summer

Distinctive Qualities: Soft looking shrub with light blue blooms and fuzzy grey green stems and leaves.

Advice: Avoid poorly drained clay pots. Intolerant of frost.
Polianthes tuberosa ‘Pink Sapphire’
(now: Agave arnica)
Tuberose

Unit: pot
Price: $12

Height: 1.5-3’
Light: full sun
Soil: well-drained

Flowering time: summer, early fall

Distinctive Qualities: Victorian favorite. Lovely tubular, fragrant, light pink blossoms with waxy texture bloom on top of 18-24” stems. Foliage is 1’ tall. Bulbs can be started indoors for early bloom. Great pollinator!

Advice: Feed and water regularly throughout the growing season. With the first autumn frosts, remove tubers from their positions and store over winter in peat or sand. Replant the following spring. The flowers can be eaten cooked and are often added to soups or used to flavor soy sauce in Asian cuisine.

To order plants, please visit www.snug-harbor.org/plant-sale.
TENDER PERENNIALS AND HOUSEPLANTS
Polianthes tuberosa ‘Super Gold’
(now: Agave arnica)
tuberose

Unit: pot
Price: $12

Height: 1.5-3’
Light: full sun
Soil: well-drained

Flowering time: summer, early fall

Distinctive Qualities: Victorian favorite. Lovely tubular, fragrant, light gold blossoms bloom on top of 18-24” stems. Foliage is 1’ tall. Bulbs can be started indoors for early bloom. Great pollinator!

Advice: Feed and water regularly throughout the growing season. With the first autumn frosts, remove tubers from their positions and store over winter in peat or sand. Replant the following spring. The flowers can be eaten cooked and are often added to soups or used to flavor soy sauce in Asian cuisine.

CLICK HERE TO RETURN TO PLANT LIST
TENDER PERENNIALS AND HOUSEPLANTS
Salvia confertiflora
sabra spike sage

Unit: one pot
Price: $9

Height: 4-6"
Light: full sun to light shade
Soil: well drained

Flowering time: late summer to fall

Container or in-ground: either

Distinctive Qualities: Native to Brazil. Lance-shaped, scalloped, dark green leaves are 8" long and have a pungent scent. In mid-summer to frost, slender spikes of small scarlet-orange flowers rise well above the foliage. Flower stalks and flowers are covered in velvety reddish-brown hairs. The blooms provide a welcome splash of color in the late season landscape. Attractive to hummingbirds. Deer resistant. Heat and drought tolerant.

Advice: Prune heavily in winter or early spring. Watch out for slugs, snails, capsid bugs, rosemary beetles, and leafhoppers.
Salvia elegans
pineapple sage

Unit: one pot
Price: $9

Height: 4-5'
Light: full sun
Soil: well drained

Flowering time: late summer to fall

Container or in-ground: either

Distinctive Qualities: One of the most popular salvias. This shrubby plant has tall square steps covered with strongly pineapple scented bright green, oval shaped, fuzzy leaves. Tubular scarlet-red flowers bloom in late summer on long graceful spikes. Favorite of bees, butterflies, and hummingbirds. Great verticality and texture. Deer resistant.

Advice: Pinch when young to produce more branching for bushy growth. Cut back overwintered plants in spring.
TENDER PERENNIALS AND HOUSEPLANTS
Salvia guaranitica
anise-scented sage

Unit: one pot
Price: $9

Height: 24-30"
Light: full sun
Soil: well drained

Flowering time: late summer to fall
Container or in-ground: either

Advice: Easy to grow.

To order plants, please visit www.snug-harbor.org/plant-sale.
Salvia leucantha
Mexican bush sage

Unit: one pot
Price: $9

Height: 30-36”
Light: full sun
Soil: well drained

Flowering time: fall

Container or in-ground: either

Advice: Easy to grow.
TENDER PERENNIALS AND HOUSEPLANTS
Salvia microphylla ‘Hot Lips’
littleleaf sage

Unit: one pot
Price: $9

Height: 24-30"
Light: full sun
Soil: well drained

Flowering time: late summer to fall
Container or in-ground: either

Distinctive Qualities: Unique, fast growing North American native with unusual two-toned white and red flowers, backed by fine green foliage. The blooms appear continuously though the hottest summers until the first frost in fall.

Advice: Easy to grow. Water deeply and regularly during the first growing season to establish an extensive root system. Once established, reduce frequency. Tolerates mild drought. Prune lightly after first flush to promote continued bloom. Fertilize in early spring.
TENDER PERENNIALS AND HOUSEPLANTS
Syngonium podophyllum
‘Pink’ arrowhead plant

Unit: pot
Price: $12

Height: 6 feet
Light: partial shade
Soil: well-drained

Flowering time: summer

Distinctive Qualities: Lovely vine plant. Leaves have the effect of being paint-splattered with pinks and greens.

Advice: Poisonous to pets! Avoid direct light.
TENDER PERENNIALS AND HOUSEPLANTS
Tradescantia fluminensis ‘Nanouk’
Inch plant

Unit: one pot
Price: $8
Height: 9"
Light: bright, indirect light
Soil: moist
Flowering time: spring through autumn
Container or in-ground: either
Distinctive Qualities: Purple, pink, and white accent green striped leaves. Under the right conditions, will flower. Loves humidity and is a wonderful plant for indoor humid areas.
Advice: Can be overwintered indoors. Keep dogs and cats away as leaves are toxic. Save stem cuttings to propagate new plants.

To order plants, please visit www.snug-harbor.org/plant-sale.
TENDER PERENNIALS AND HOUSEPLANTS
Tradescantia zebrina
inch plant

Unit: one pot
Price: $8

Height: 4”
Light: full sun to shade
Soil: moist

Flowering time: grown mostly for foliage

Container or in-ground: either

Distinctive Qualities: A vigorous grower.

Advice: Can be overwintered indoors.
TENDER PERENNIALS AND HOUSEPLANTS

Tradescantia pallida
purple heart

Unit: one pot
Price: $8

Height: 6"
Light: full sun to shade
Soil: moist

Flowering time: grown mostly for foliage

Container or in-ground: either

Distinctive Qualities: Can be used as a ground cover, cascading in baskets, or a trailer in mixed containers. Best used in masses. Shaded plants tend to be more green than purple. Drought tolerant and low maintenance.

Advice: Pinch plants to promote compact growth. Fertilize monthly during the growing season. Reduce watering in winter. Juice from the leaves or stems may cause skin redness. Easily propagated from cuttings.

To order plants, please visit [www.snug-harbor.org/plant-sale](http://www.snug-harbor.org/plant-sale).
AQUATICS
Colocasia esculenta ‘Black Magic’
taro

Unit: pot
Price: $9

Height: 3-6’
Light: full sun to partial shade
Soil: well drained

Flowering time: summer

Distinctive Qualities: A second crop of taro can be planted between taro rows about 12 weeks before the main crop is harvested. Tuberous plant. Consumed all across many cultures, especially as dessert.

Advice: Needs constant moisture. For its tubers, Taro must be planted during a long summer. Can otherwise be grown for its leaves.

To order plants, please visit www.snug-harbor.org/plant-sale.
AQUATICS
Cyperus alternifolius
umbrella palm

Unit: pot
Price: $12

Height: 5-6’
Light: full sun
Soil: aquatic or terrestrial with very moist soil

Flowering time: grown for foliage

Distinctive Qualities: a tender perennial that flowers in greenish brown clusters.

Advice: bring indoors to overwinter.
AQUATICS
Eichhornia crassipes
water hyacinth

AVAILABLE BY ADVANCE PURCHASE ONLY

Unit: bare root
Price: $6

Height: 6-18”
Light: full sun
Soil: aquatic - floating

Flowering time: summer

Distinctive Qualities: A tender perennial, often grown as an annual.

Advice: Scatter small bunches of plants on the water after the last frost. Remove excess plants as necessary. Can be overwintered indoors in wet sandy loam with bright light. Quite invasive if allowed to grow without restraint.

To order plants, please visit www.snug-harbor.org/plant-sale.
AQUATICS
Sagittaria graminea
grass-leaved arrowhead

Unit: pot
Price: $8

Height: up to 3'
Light: full sun to full shade
Soil: aquatic

Flowering time: summer

Distinctive Qualities: aquatic wildflower that attracts a variety of pollinators. Can become a vine plant in a hanging container.

Advice: Plant should be allowed to dry out between watering to prevent root rot.

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES
Capsicum annuum ‘California Wonder’
bell pepper

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: great for stuffed peppers, with sweet, crispy, and juicy texture. Ready about 65 days from transplant.

Advice: Plant in a sunny location after the threat of frost has passed. Set plants 12-18” apart. Soak ground every 2-3 days to avoid overwatering. Peppers thrive in well-drained, fertile soils with a pH of 6.5. Abundant phosphorous and calcium is needed for best results.

Companion Planting: carrots, cucumbers, radishes, squash, onions, chives, eggplant, spinach, lettuce, chard.

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES
Capsicum annuum ‘HMS Orange Picnic’
picnic pepper

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well drained

Container or in-ground: either

Distinctive Qualities: Full bodied flavor, great for roasting. Can grow quite tall, so prepare to stake them. Peppers may take time to germinate.

Advice: Plant in a sunny location after the threat of frost has passed. Set plants 12-18" apart. Soak ground every 2-3 days to avoid overwatering. Peppers thrive in well-drained, fertile soils with a pH of 6.5. Abundant phosphorous and calcium is needed for best results.

Companion Planting: carrots, cucumbers, radishes, squash, onions, chives, eggplant, spinach, lettuce, chard.

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES
Capsicum annuum 'Bastan F1 Poblano' poblano pepper

Unit: cell pack
Price: $5

Light: full sun
Soil: moist, well-drained, slight acidity

Container or in-ground: either

Distinctive Qualities: Early and adaptable poblano pepper. Sturdy, upright plants produce uniform 5” fruits. Smooth and easy to peel. Great for stuffed peppers.

Advice: Plant in a sunny location after the threat of frost has passed. Set plants 12-18” apart. Soak ground every 2-3 days to avoid overwatering. Peppers thrive in well-drained, fertile soils with a pH of 6.5. Abundant phosphorous and calcium is needed for best results.

Companion Planting: carrots, cucumbers, radishes, squash, onions, chives, eggplant, spinach, lettuce, chard.
Physalis ixocarpa ‘Toma Verde’
Tomatillo

Unit: pack of 6
Price: $5

Height: 6’
Light: full sun
Soil: well drained

Container or in-ground: large container and outdoors

Distinctive Qualities: Can generally be treated like its relative, the tomato. Fruits are borne inside a paper husk. Harvested when fruit is still green and tart. Fruits keep through the winter if stored in a cool place. Used often in Mexican cuisine for salsas. Easy to grow and very productive.

Advice: Try to rotate crop so that it is not planted in the same soil as tomatillos/tomatoes for the past three years. Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage
VEGETABLES
Solanum lycopersicum ‘Sakura F1 (IN)’
cherry tomato

Unit: pot
Price: $7

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: Early, delicious, and attractive cherry tomatoes. Highly prolific and more disease resistant than other varieties.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea. Rotate so that tomatoes are planted in a different place in the garden every year.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage

To order plants, please visit www.snug-harbor.org/plant-sale.
VEGETABLES

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage
VEGETABLES
Solanum lycopersicum ‘Amish Paste’
tomato

Unit: one pot
Price: $7

Light: full sun
Soil: well drained

Container or in-ground: either

Distinctive Qualities: Excellent for canning, salsa, sauces and sandwiches. Sweet, meaty flavor with good crack resistance.

Advice: Too much moisture and humidity adversely affect tomato growth. For best results provide a stake to support tomato vines and lift fruit off of the ground as it grows. Has many insect pests, so companion planting with other edible plants is a good idea. Rotate so that tomatoes are planted in a different place in the garden every year.

Companion Planting: basil, oregano, parsley, chives, nasturtium, onions, carrots, celery, calendula, geranium, borage
VEGETABLES
Solanum melongena ‘Ping Tung Long’
eggplant

Unit: cell pack
Price: $5

Light: full
Soil: moist, well-drained, amended with plenty of compost, slightly acidic

Container or in-ground: ground

Distinctive Qualities: This is a classic heirloom variety, ready to harvest 74 days after transplanting. You can pick halfway to maturity to encourage fruiting.

Advice: wait to plant outdoors until weather is consistently above 60°F. You can help warm the soil by covering the planting area with black plastic to capture the solar energy. Cut a slit in the ground to allow the planting, leaving the plastic in place. Upon transplanting, remove any of the fruit or flowers so the plant focuses on root and stem development while acclimating. Inadequate watering results in a bitter fruit. Water at least an inch of water weekly, under the foliage at ground level, keeping the foliage dry. Watch for flea beetles, chewing pin-sized holes in the leaves. Consider planting a trap crop of radishes next to the eggplant, which the beetles prefer.

Companion Planting: chamomile, chives, coriander, yarrow, dill, mint, thyme, hyssop, chervil, geranium, sage, oregano.
NYC Department of Sanitation COMPOST

Unit: forty-pound bag
Price: FREE

Did you know that food scraps and yard waste make up more than 30% of our trash in New York City? The NYC Compost Project reduces waste through composting. This not only keeps items out of the landfills, but also reduce greenhouse gas emissions and creates an important resource for all of us: nutritious compost to amend your soil!

Learn more about reducing your food waste, making compost, improving your environment, and fight climate change by contacting compost@snug-harbor.org.

You can learn more about composting at home or on our site! Become a certified Master Composter!

You can also support composting by dropping your organic waste at a Food Scrap Drop-off site near you. Visit the Drop-off Composting web page to learn where there is a NYC Food Scrap Drop-off Site near you.
